

SUBMARINE WARFARE FAILS LLOYD-GEORGE DECLARES

U-BOAT TOLL DECREASING

More Food Ships Reaching
England Thru Aid of Ameri-
ca, He Tells Commons.

NO DANGER NOW OF FAMINE

(BULLETIN.)

[By Associated Press Leased Wire.]
London, May 25, 1:30 p. m.—The
success against submarines has re-
sulted in a distinct improvement in
our food situation, said Premier
Lloyd George today in the house of
commons.

The premier said more effective
blow had been dealt the subma-
rines during the last three weeks than
in any corresponding period of the
war.

The shipping losses for May, the
premier said, probably would show a
reduction from the April figures. In
speaking of the success of the anti-
submarine methods he said:

"We owe a very considerable debt
of gratitude to the great American
people for the assistance they have
rendered and the draft they have
placed at our disposal. Now that the
American nation is in the war, it is
easier to make arrangements for the
protection of our mercantile marine
than it was before."

Mr. Lloyd George asserted there
was no danger to the country from
starvation, but that the utmost econ-
omy of foodstuffs was still essential.

"The submarine menace need cause
no fear that the war is going to be
lost for that reason," he declared.

Submarine a Failure.
"I see that today the Germans are
depending mainly on submarines for
success," said Mr. Lloyd George.
"All I can say is that if that
is their main hope of success, it is
doomed to disappointment. I say it
with a full sense of responsibility and
on behalf of the government after
full consideration of the whole case.
What does the submarine do? It does
not economize that farmers need
not plow their lands. It means that
if every one does his duty the Ger-
man hope of triumph is the war based
on submarines is the greatest mis-
calculation in the whole series of
miscalculations of the war. If every
one does his duty patriotically
each in his own way to the
common stock, then I say the sub-
marine is not going to defeat us."

BRAZIL WILL SEIZE ALL GERMAN SHIPS

(By Associated Press Leased Wire.)

Rio Janeiro, May 25.—It is stated
in official circles that parliament will
order the confiscation of all German
ships in Brazilian ports as soon as the
official report of the inquiry into the
torpedoing of the Brazilian steamer
"Buzard" at Bordeaux, is received.
At the same time parliament will de-
clare the revocation of Brazil's decla-
ration of neutrality.

ITALIANS CAPTURE JAMIANO HEIGHTS

(By Associated Press Leased Wire.)

Paris, May 25.—Part of the
offensive movement south of Gorizia
has captured the fortified heights
north of Jamiano, the war office an-
nounced today. The Italian positions
have been extended still further, the
announcement adds.

South of Jamiano to the sea, the
Italians also gained ground, driving
forward south of the Jamiano-Pier-
tozova road.

The battle is still raging from the
sea as far north as Piava. The Italian
yesterday and the day before took
a total of 10,245 prisoners and much
war material.

WIFE NAMES ATTRESS IN DIVORCE SENSATION

Chicago, May 25.—Miss Martha
Hedman, who has been acclaimed
the most beautiful woman on the
stage, now appearing in "The Boom-
erang" at a loop theater, is named
as the "other woman" in a suit for
divorce filed in New York against
Roy Emerson Whitman, known as
Whitman, better known as Ethel Le-
vinson, also internationally famous as
a pianist. Mr. Whitman was to be
served here today with notice of the
suit.

The bill charges many indiscretions
by Mr. Whitman and names several
other women. The indictment be-
gan Jan. 1, 1914, the petition states,
and continued until last Tuesday. It
states that Mr. Whitman and Miss
Hedman were seen together in New
York at various times from Jan. 1,
1915, to Sept. 30, 1916, and in Chicago
from October 1 last until the day
of the filing.

Mr. Whitman is an associate of Je-
sus Hoffman and Leopold Godowsky,
and is well known in London, Berlin
and Vienna. He married Ethel Le-
vinson nine years ago in London.
They have one child, a boy.

War Situation

Austrian official statements, sup-
plementing the announcement from
Rome, indicate that the Italian of-
fensive in the Julian Alps and on
the Carso plateau is steadily gaining
in importance and extent. General
Cadorna is apparently making a su-
preme effort for a decision and the
brilliant successes he has already
won have aroused high hopes.

The Italian commander is appar-
ently following the Anglo-French
policy of striking mighty alternate
blows at the enemy's flanks. The
roar of his guns can already be heard
in Trieste but the wilderness of vol-
canic rocks and caves which lie be-
tween him and his goal makes a
rapid advance, under the most favor-
able circumstances, a practically im-
possible task. The most advanced Italian
posts are scarcely more than ten
miles from the great Austrian naval
base but this distance is not to be
compared with an equal extent in an
open country.

The Italian blow is struck at a
time when political conditions in
Austria-Hungary have reached an
acute phase. The resignation of
Count Tisza, "Iron man" of the dual
monarchy and staunch pillar of pan-
Germanism and Junkerdom, came on
the eve of the assembling of the Aus-
trian parliament, a step bitterly
fought by the bureaucrats since the
contended for by the democrats. The
leaders of the two events give decided
color to the numerous reports that
the young emperor, Charles, has dem-
onstrated jealousy and is consequently
opposed to the Junker ring in Berlin.
A further and highly significant in-
dication of the internal situation
comes in the report that he has
summoned Count Albert Apponyi and
Julius Andressy to an audience.

Both men have been conspicuous for
years as leaders of the liberal ele-
ment in the empire and have been
consistent opponents of Count Tisza.
Count Apponyi has delivered numer-
ous lectures in the United States and
Count Andressy is credited with
having a warm admiration for Eng-
land and English institutions. He
has for many years advocated univer-
sal suffrage for Austria-Hungary and
is also the father of a scheme for
a world forum.

No change of importance is reported
from any of the other war the-
aters. The British are preparing for
another drive in the Arras region
but reports of bad weather on that
front may delay the blow. In Rus-
sia, the minister of war, Kerensky, is
vigorously working to restore the
morale of the army and to restore
to have met with considerable suc-
cess. Presumably the demoralization
in Russia's fighting forces has forced
a halt in the British campaign in
Mesopotamia as nothing has been
heard from that region for some time.

SLAVS WARNED ASIATIC PROVINCES MAY BE LOST

(By Associated Press Leased Wire.)

Paris, May 25.—Minister of War, Kerensky,
speaking at Helmsford, before
returning on his tour of the front,
referred to the military situation in
Asia Minor, of which the official news
agency quotes him as saying:

"There is danger not only of losing
Armenia, but possibly part of the
Caucasus."

ENGLAND AND ITALY GET NEW U. S. LOAN

(By Associated Press Leased Wire.)

Washington, May 25.—Another
loan of \$75,000,000 was made to
Great Britain today by the United
States, bringing up the total loaned
that nation thus far to \$400,000,000
and the total of loans to all the
allies \$745,000,000.

A payment of \$75,000,000 also was
made to Italy today as part of the
\$100,000,000 loan announced some
time ago. The Italian government
already has received \$25,000,000 of
the loan.

The Italian commissioners turned
their attention today to starting at
the earliest possible time formal dis-
cussions with American officials over
various phases of war co-operation
between the United States and Italy.

AMERICANS NOW ON FIRING LINE

First Combatant Corps Goes to
Front With the Stars and
Stripes Flying in the Van.

OTHERS ARE BEING PREPARED

(From a Staff Correspondent of the
Associated Press.)

Grand Headquarters of the French
Army in France, May 24.—The first
American combatant corps went to
the front today under Captain E. I.
Tinkhah and Lieut. Scully of Prince-
ton. Captain Tinkhah won the war
cross at Verdun.

It was a proud moment when the
first detachments of the American
field service, consisting mainly of
Cornell undergraduates, departed for
the Alame battlefield. They were
armed with carbines, attired in khaki
uniforms and drove American five
ton motor cars. As they left the stars
and stripes floating over the canon-
ment in a historic French forest, spread
out in the breeze and other
contingents cheered them on their
way. Clarence Mackay presented the
camp with the American flag which
now flies beside the tri-color.

The correspondent of the Associ-
ated Press watched other American
sections drilling in preparation for
active participation in the fighting.
Among them were detachments from
Andover, Dartmouth, Harvard, Johns
Hopkins, Yale, Chicago and Williams
colleges, while a large body from
Princeton was awaiting organiza-
tion. Lieut. Daily, captain of the Yale
football team of 1916, and Lieut. Wil-
liam Taylor of New York, were busy
putting one section into shape while
Lieut. Kennedy superintended an-
other.

French officers and Lieut. J. W.
Gestheimer of Philadelphia, who won
the Croix de Guerre in France in which
he enlisted at the outbreak of the
war, have been appointed instructors
of the Americans at the central train-
ing school. Some sections are drilled
according to the French method and
others according to the American. All
officers attached to the corps ex-
press the utmost satisfaction with
the men, who display readiness to
perform any task. They are all
young men, many of them civil en-
gineers and they show an adaptabil-
ity to meet any circumstances. Most
of them intended to serve with the
American ambulance but accepted the
fighting corps after the United
States decided to enter the war. They
have all been undergoing some of the
hardships of campaigning, sleeping
in tents in the forest, eating hard-
boiled food, but they know that this is
no parade and entails the hardest and
most trying work day and night with
many privations.

GERMAN U-BOATS SEIZE FOUR SWEDISH CARGOES

(By Associated Press Leased Wire.)

Petrograd, May 25.—Via London,
12:10 p. m.—Four Swedish steamers
with cargoes of varied character,
bound for Russia, have been captured
by a German submarine in the Gulf
of Bothnia, the official news agency
announces.

Over to the presence of subma-
rines. It is added, traffic between
Finland and Swedish ports has been
discontinued.

(By Associated Press Leased Wire.)
St. Petersburg, May 25.—The
British war commission which left
Washington last night, crossed the
border into Canada this forenoon after
viewing the falls on the Ameri-
can side. They planned to leave here
this afternoon for Toronto.

The treasuries of the Red Cross
chapters contained \$54 more yester-
day. It was reported by those in
charge at the stations where mem-
berships may be obtained. The total
amount to date is now \$438.

Slowly but steadily the total is be-
ing raised day by day in the campaign
to raise 5,000 members in Aurora and
the immediate vicinity, and is encour-
aging to workers.

Chairman Roy Strohn has called a
meeting to decide on a suitable lo-
cation for central headquarters where
money received may be turned in
daily. Plans for the drive toward the
\$500 goal will also be discussed.

The War Spirit

The American flag will not be
trampled under foot or run over if
Peter LaCure, a motorman on the
Union street car line can help it.

Peter is a Frenchman born natural-
ized American and the strong ties
between his country and the United
States were demonstrated yesterday
when LaCure stopped his car, got off,
ran ahead and picked up a small
American flag which was lying
across the rail. Peter put the em-
blem in the front vestibule of his
car where it is still hanging. The
flag was dropped by a child in front
of the Fox theatre. Peter, however,
is not the only patriotic employee of
the traction company. Several others
have flags displayed in their car
windows.

William Bernard Linster of Aurora
will lose no time joining the navy if
he can help it. Linster, 22 years old,
is a Frenchman born naturalized
American and the strong ties be-
tween his country and the United
States were demonstrated yesterday
when LaCure stopped his car, got off,
ran ahead and picked up a small
American flag which was lying
across the rail. Peter put the em-
blem in the front vestibule of his
car where it is still hanging. The
flag was dropped by a child in front
of the Fox theatre. Peter, however,
is not the only patriotic employee of
the traction company. Several others
have flags displayed in their car
windows.

Another enlistment from the south
was reported this morning at the
branch of the Navy league when Robert
Lee Edwards, age 22, of Tampa,
Fla., signed up. He enlisted as an
electrical landsman.

The total number of enlistments at
the Aurora branch of the Navy league
for the first week is 25. Of this num-
ber, 10 were from the city and 15
from the suburbs. Three rejected in Aurora
and six not being reported upon as
yet.

Hert Yost, one of those who passed
the examination for the entrance into
the navy, will leave Monday to go in-
to training at the great lakes station.
Yost and his father have been en-
gaged in business as plastering con-
tractors. He will join the seaman ap-
prentice crew.

The work being done at the Aurora
branch of the Navy league in enlist-
ing recruits is very satisfactory and
has received special recognition from
Lieut. L. M. Stevens, recruiting of-
ficer of the United States navy in Chi-
cago. All connected with the local
navy recruiting branch have been giv-
ing their best efforts to the cause.

Ray W. Howard, 26 years old, a
machinist employed in the locomotive
department of the Burlington railroad
shops last night enlisted in the Third
regiment machine gun company. He
resides at 372 New York street and is
a son of William M. Howard.

The Aurora boys who went in for
army training are pretty well sepa-
rated. Elverson Goppel, who went
on with the Conways, is now at
Ethel Allen, Vt. He writes that it
is a beautiful spot about five miles
from Lake Champlain and that every-
thing is lovely, except "blitters." The
novice who starts in the cavalry
certainly does accumulate blisters,
and as young Goppel remarks, "cats
from a shelf for a time" until affairs
in general are harmonized. He
seems to be well quartered—they
have a piano, he has written to "send
on all the music and then some."

MODIFIED PRESS CENSORSHIP PLAN

(By Associated Press Leased Wire.)

Washington, May 25.—Conferees on
the espionage bill have drawn up a
modified newspaper censorship
section which will be brought before
congress with the influence of the
administration for inclusion in the
pending bill. It must be accepted by
both houses to become part of the
bill.

The wording of the new section
confines prohibited publication ex-
clusively to military information and
retains the provision that a jury shall
decide whether published information
is useful to the enemy. It is consid-
ered a much more liberal section
than others previously proposed by
the administration.

The conferees also agreed on the
senate amendment to empower the
president to declare export embar-
goes. It is designed to prevent ship-
ments of supplies to Germany thru
neutral countries. The agreements will
be formally presented tomorrow.

AND HE LAUGHED

According to gossip in automobile
circles, a young man employed as a
demonstrator by a local garage, gave
a poor exhibition of driving last
night while "under fire." The young
man drove his car over the curb-
ing at the corner of Galena boulevard
and Locust street when he saw the
young woman who goes with the young
man who was in the automobile
with the fussed driver.

RUSSIAN PEASANTS SEIZING PROPERTY

(By Associated Press Leased Wire.)

Petrograd, Thursday, May 24, via
London, May 25, 1:10 p. m.—The
agrarian disorders, wholesale con-
fiscation of property, incendiarism and
other dangerous symptoms of anarchy
which followed the overthrow of the
old authority in many important in-
dustrial centers and agricultural dis-
tricts of central and southern Russia,
are becoming more serious, according
to dispatches from various points in
Bessarabia and Siberia.

The many cities the soldiers com-
mitted by taking prompt action have
succeeded in anticipating revolts and
in restraining the impulse of the po-
pulation toward indiscriminate con-
fiscation and all kinds of lawlessness.
In others, however, the peasants, de-
fying restraint, have burned or sac-
kaged and appropriated government and
private properties and a general state
of anarchy prevails. The following
resume of telegrams, indicates how
acute the trouble in the interior has
become and how, like contagion, it
has crept from one district to another.

STEEL MEN PLEDGE SERVICES TO NATION

(By Associated Press Leased Wire.)

New York, May 25.—The American
Iron and Steel Fraternity will be ac-
tuated by the highest conception of
patriotic duty with respect to the war
requirements of the government. El-
bert H. Gary said today, addressing
the American Iron and Steel insti-
tute as its president, at its twentieth
annual meeting.

"We will," he said, "cheerfully
bear our full share of the load which
must be carried until there is real-
ized a complete triumph over the
hosts of aggressive Germany and
inhuman anarchy. Personal inter-
ests will yield to the necessities of
our country we love."

TWO UNDER ARREST IN CRASH OF BANKS

(By Associated Press Leased Wire.)

Chicago, May 25.—State bank ex-
aminers today continued the work of
finding out the condition of the Au-
burn State bank and the Morgan
Park State bank which closed their
doors last Wednesday. Thomas F.
McFarland, president of both banks,
and William J. Cline, cashier of the
Auburn Park bank, were taken into
custody by the state's attorneys' of-
fice last night and later were re-
leased on bond. Mark P. Bransfield,
vice president of both institutions, is
wanted and, it is said, has promised
to surrender during the day. All
three men are charged with larceny
and receiving deposits, when the
banks were last closed.

The city clerk says he will prob-
ably accept the offer of Principal
Waldo. The typewriters will be tak-
en to the various precincts on the
morning of registration day. They
will be returned to the school the
following morning.

The city clerk plans to have two
typists in each precinct.

TEUTON RAILROADS FAIL FOOD SUPPLY

Central Europe Facing Famine
as Result of Lack of Skilled
Labor on Lines.

War Making Such Heavy Demands It
Is Impossible to Keep Pace
With Needed Repairs.

(By Associated Press London Wire.)
New York, May 25.—(By a staff
correspondent of the Associated Press
returned from Vienna)—Central
Europe's food problems have
during recent months been adversely
influenced by the fact that slowly
the railroads are losing their effi-
ciency and are no longer able to do
their share in the distribution of
these necessities. The war has made
heavy demands upon the lines, and it
has been impossible to give track-
ing and rolling stock the care they re-
quire.

For almost two years now the
railroads have been neglected. This
and the heavy traffic over many of
the principal lines due to the war
has made the railroad system a
mere shadow of what it was formerly.
Ballasting has been very in-
different done by old men, boys,
women and prisoners of war, with
the result that the wear on the ties
has been unusually severe, a condi-
tion which in its turn has caused
depreciation of the rails and rolling
stock.

Lack of skilled labor has prevented
the state and private railroads from
keeping the rolling stock in good re-
pair. It has compelled a lessening in
the number of trains. A reduction of
the number of trains, resulted from
the fact that the railroads have
been unable to replace the men who
have been called to the front. In their
places have been called in less effi-
cient men. It is whether in all of this
it will be possible to do so, and an
engine capable of per-
forming a service within 50 per cent
of its former efficiency. Hardly
week passes without some wreck.

Copenhagen reports that Christiania
workmen laid down their tools yes-
terday and marched to the parlia-
ment building, where they presented

MANUFACTURERS URGE TAX CONSOLIDATION

(By Associated Press London Wire.)
Chicago, May 25.—A resolution
adopted by the Illinois Manufacturers
Cost association and forwarded to
Washington today urges congress to
pass legislation for the consolida-
tion of all income taxes and excess
profit taxes into one system of tax-
ation levied upon the volume of net
profits applicable to all business op-
erations. The resolution says that the
imposition of several kinds of taxes
would greatly increase and would
needlessly add to the burdens of ex-
ecutives now working to bring indus-
try up to the efficiency and econ-
omy demanded by war conditions.

PLAN CHICAGO CLUBS FOR LIBERTY LOAN

(By Associated Press London Wire.)
Chicago, May 25.—Liberty loan bond
clubs were to be founded in each of
the 4,000 offices and business houses, which
are members of the Chicago Association of
Commerce. Preliminary work toward or-
ganizing these clubs was taken today at
a meeting of business men, which was ad-
dressed by James B. Fagan, Chicago
banker, and W. A. Heath, governor of the
board of the federal reserve bank of Chi-
cago.

PROPOSES TO MOBILIZE AGRICULTURAL ARMY

(By Associated Press London Wire.)
Washington, May 25.—An agricultural
army composed of those disqualified from
military service to use public lands and
the advanced money, implements and seeds
by the government was proposed in a bill
introduced today by Senator Lewis of
Illinois. Half the crops would go to the
government.

SURVIVORS TELL HOW LINER SUNK

Most of Those Lost When Troop
Ship Went Down Were Kill-
ed by Torpedo Blasts.

Captain, Who Leaped Into Sea, Died of
Exhaustion—Nurses Compelled
to Swim for Lives.

(By Associated Press London Wire.)
London, May 25.—Survivors of the
torpedoed transport Transylvania
who are now in England, say that
the vessel was struck by the first
torpedo at 10 o'clock in the morning.
The ship was greatly damaged but
the engines were uninjured and the
captain tried to reach shore, several
miles distant. In the hope of beach-
ing the vessel. A quarter of an hour
later a second torpedo hit the en-
gine room and the ship was brought
to a standstill and began to settle.

The first torpedo is believed to
have killed a large number of men
while the second caused the death
of most of those in the engine room
and stokehold, wrecked the machin-
ery, put out the electric lights and
tore away a large part of the side
of the vessel. It also struck a loaded
boat, blowing it to pieces.

All the boats were rapidly lowered
the nurses aboard embarking first.
The soldiers who were lined up on
the deck, shouted jocular farewells
and sang "Tipperary" and other sol-
dier songs. Destroyers raced to the
rescue and worked energetically un-
til crowded to capacity with sur-
vivors, many of whom were injured.

Explosions Killed Most of Victims.
Accounts of the rescue work differ.
Some say all who survived the ex-
plosion were saved and another ac-
count claims that owing to the rough
sea and the dangerous position of the
steamer a party of about 150 soldiers
could not be rescued. All accounts

indicate that the great bulk of the
casualties was due to the explosion
of the torpedoes and that none of
the survivors were killed by the tor-
pedoes. The ship sank 60 minutes
after a second torpedo struck her and
the survivors were landed at a port
where they were given a great recep-
tion. Captain Breuell, who jumped into the
sea when the decks of the ship were
swash, was picked up in an ex-
hausted condition and died in a hos-
pital ashore.

One of the nurses says that the life-
boat in which she embarked was
much overcrowded and, notwith-
standing constant bailing, was soon
full of water owing to the rough
sea. She was washed overboard but
swam back. The occupants of the
boat were rescued by a destroyer
after two hours at sea. Some of the
men swam ashore.

AUSTRIAN CABINET ALSO NEARS CRISIS

(By Associated Press London Wire.)
London, May 25, 12:35 p. m.—A va-
cancy in the Austrian premiership
may soon follow the Hungarian pre-
miership vacancy, according to re-
ports thru Amsterdam today.

Messages from Vienna, says the
Central News-correspondent at Am-
sterdam indicate that the rumors of
the resignation of Count Coudenhove-
Tulno, the Austrian premier, are so
persistent that developments in this
connection are expected shortly.
Count von Coudenhove, the governor
of Bohemia, is mentioned as suc-
cessor to the premier.

Two of the most likely candidates
for the Hungarian premiership in suc-
cession to Count Tisa, are Dr. Alex-
ander Wekerle a former Hungarian
premier, and Archduke Joseph.
Parliament in Session.
Amsterdam, via London, May 25.—
A Vienna telegram says that in the
course of a meeting of the members
of the lower chamber Premier

Ciam-Martino expressed the hope
that the session would proceed in a
manner to increase the reputation of
the monarchy abroad. He mentioned
bills which would be submitted, in-
cluding a coalition law and one pro-
viding for a war profit tax. The
premier admitted the right of the
house to decide independently what
it considered necessary.

The foregoing dispatch gives the
first news that the Austrian parlia-
ment has convened. The convening
of parliament, which has not been in
session since the outbreak of the war
has been one of the most acute politi-
cal questions in Austria. Dr. Fried-
rich Adler, the assassin of Premier
Sturgkh, gave as the principal rea-
son for his act the premier's deter-
mined refusal to convene the legisla-
ture. On April 26 the government
yielded to the growing popular de-
mand, and announced that parlia-
ment would meet on May 20. Pre-
mier Ciam-Martino's address was presu-
mably delivered at a preliminary gath-
ering of the deputies.

As of Old U. S. Fights for Right
Veterans Tell Young
Men and Women,

AT MEMORIAL EXERCISES

The Mooseheart boys' band united today with the G. A. R. file and drum corps in greeting the students who assembled this morning at the Fox theater for the fourth and last day of the annual Memorial exercises for the old soldiers.

West High cadets in full dress uniform paraded to the theater from the high school, attracting hundreds of people, who rushed to windows and doors and crowded the sidewalks as they marched along.

Students of the high schools, colleges and seminaries, who totally filled the theater, left out three round cheers for the veterans as they filed through the lobby and marched down the main aisle, where the cadets stood at attention.

Prin. K. C. Merrick assumed charge of the program for the schools which was opened by an orchestra selection by the combined orchestra of East and West High schools.

Some Have Gave to Front.

John L. Walker, in greeting the students for the "boys in blue" salute.

"It is my pleasure to have been allotted the duty of welcoming the students to our annual gathering. It is a pleasure that comes to but few, and you will notice as the old boys of '61 and '65 come upon the stage later that their numbers are rapidly diminishing and in a few short years there will be none of them left.

"In a certain sense, your numbers too are becoming smaller many of the young men within the sound of my voice this morning will shortly be called to go out and do as the boys of '61 have done before them. They will go to defend the honor of our flag.

"Some of your schoolmates have already announced their intentions and are preparing to go to their place in the trenches.

"In behalf of Post 20, I bid you welcome, only wishing that every student in this room could have the privilege of standing upon this stage and looking upon the countenances of the young people whom I see before me, the young people who have the destiny of our country in their hands. To the professors and teachers of the schools represented here, I wish to say that you little realize the responsibility that rests upon your shoulders in training these young minds in the right direction. You have a duty before you which is a grand one and one which we believe will be fulfilled.

"We have before us today something which you young people have never witnessed. War! War—between the United States of America and a foreign nation. Of one thing you have reason to be proud, for never in the history of America has our country declared war or taken up arms in war that it was not for the sake of humanity.

"Fighting for a Principle.

"We are not fighting for gain, but for a principle—that every man, woman and child in the world may enjoy the same privileges that we enjoy in America. To that end, we will devote, if necessary, our lives. We will go out in response to the call to fight for the cause of humanity. True, some will never return, but to young men who will go, remember that you are no dearer to the hearts of your mothers, than were they who went forth to battle in the days of '61 and '65.

"I know that the name 'Slacker' will never be applied to you. 'Slacker' to me, is as abominable as the word 'coward' for it is nothing more nor less than refusing duty.

"I am so full of patriotic feeling, a feeling which every American should have, that I could stand here and talk to you all day, but I must not. Again I bid you welcome and hope that the God above may deal kindly with us. I trust that in the coming year we may stand before you once more in appreciation of these beautiful exercises."

Principal K. D. Waldo responded for the schools.

"I only wish that I had the eloquence of Webster," said he, "to express adequately in expressing our feeling toward the brave army of the Republic for these exercises."

"It is the first time in the life of the students who have gathered here after year on such an occasion as this—when patriotism has been put to the test. The fair weather patriots who have stood in the position of one who is to have his flag called. Some of our boys have already responded to the call to duty, but there are those also who have been rejected for military service because of physical disability or other reasons. They are deserving of equal credit for they will take their places upon the farm to conserve the food resources of the nation, which is fully as vital.

"To the trenches or to the farm, there will be no no-ifs, and the boys of today, and I am sure, will be successful in bringing freedom to all this world."

The somewhat hampered by the confines of the stage, the West High cadets drilled very creditably in presenting the manual of arms. Capt. Archie McDonald, commanding the troops, who were in full uniform.

Bernice Halbert of Jennings seminary took upon herself the task of interpreting five characters in her recitation of "The Little Rebel." Changing easily and readily from the gruff voice of an army officer to the high pitched and appealing tones of the child heroine, she won the applause of all.

The Mooseheart Zouaves, who have appeared in public a number of times in Aurora need scarcely any introduction. If possible, they appeared more efficient than usual, and were applauded almost constantly. Commanding Officer Quick was in charge.

Girls in Dance of Nations.

East High girls flitted about as if on wings in the "Dance of the Nations." Miss Henrietta Michl represented America as "Columbia," introducing the various dancers, who interpreted the national dance of Spain, Ireland, Italy, Russia, Scotland, France, England and Sweden.

In closing all gathered around "Columbia," singing "America." The soldiers were then presented with a beautiful bouquet of flowers. Senior Vice Commander J. M. Hinton expressed appreciation for the soldiers.

"It is an old saying that it is better to be late than never," he said. "I wish to thank you for this very beautiful bouquet."

H. B. Adams spoke a few words on "Safety First" and the veterans made short remarks.

In giving the flag salute, the entire audience recited:

"We give our heads as our hearts to God and our country—one country, one language, one flag."

Owing to the fact that the films for the Fox theater did not arrive from Chicago until after noon, the usual reel of pictures was not given. Mr. Walker, in atone for the disappointment, offered to treat the students to a full bill at the theater at any time suiting their convenience, and was literally drowned out in the applause which greeted the benvolent announcement.

LIBERTY LOAN BONDS SELLING RAPIDLY HERE

Committee in charge of the placing of the Liberty loan bonds in Aurora are finding little difficulty in securing buyers, it was reported today. Orders are being taken rapidly. The bonds are issued in two varieties, bearer bonds of \$50, \$100, \$500 and \$1,000, and registered bonds of \$100, \$500, \$1,000, \$5,000 and \$10,000 denominations.

Bearer bonds, which are made payable to bearer and can be cashed at any bank the same as United States treasury notes, are issued in sufficiently low amounts to be within the reach of the working man of moderate means, as it is desired that the loan be a popular one. In addition, banks are selling the bonds on the installment plan to further this purpose.

Ministers, manufacturers, business men, bankers and men in other walks of life are daily explaining the advantage to be derived from the possession of the bonds.

Orders will be taken until June 15 by members of the committee in charge of the sale in Aurora, the treasury department, any bank, express office or postoffice. The bonds will be delivered on that date.

SCHOOL CONTEST ON

The first annual contests of the Northern Illinois high school conference will be held at the East High school tomorrow. Pupils of East and West High schools of Aurora, Joliet, Elgin, Rockford, and Freeport will compete in shorthand, typewriting, speaking and writing contests. The athletic meet will be held at the driving park in the afternoon.

Following is the program at East High:

10 a. m.—Typewriting contests.

10:30 a. m.—Shorthand contest.

8 p. m.—Oratorical contest in high school auditorium.

Quarantines Raised.—The signs were today taken off of seven homes in Aurora which have been under quarantine because of scarlet fever. It was announced at the office of Dr. George H. Schwachgen, city health commissioner, this afternoon that a number of other homes will be released tomorrow. One new case in the home of J. Abbott, 112 Cedar street, was reported today. The home has been quarantined.

Frank H. Riddle, who was operated on at the Aurora hospital, for appendicitis, is getting on nicely.

Social Chatter

Frank Riddle, who was operated on Wednesday at Aurora hospital, is improving.

Mrs. Z. W. Ketchum has returned from Lafayette, Ind., where she attended the funeral services of her uncle, Samuel L. Campbell, whose death occurred at the soldiers' home. The deceased was a sergeant in the Eleventh volunteer and first lieutenant in the 136th regiment of Indiana.

THIS DAY IN ILLINOIS HISTORY.
May 25, 1846—Governor Thomas Ford issues proclamation calling on the soldiers of Illinois to raise three regiments of volunteer infantry or riflemen for the war between the United States and Mexico.

PATRIOTISM.
There are in national banks alone, in the United States, 16,750,000 depositors.
In all the banks there must be over 35,000,000 depositors.

Over one-third, then, of all the people in the United States are depositors of some kind.

This would constitute a vast army—larger than all the fighting forces now in the great war.

It is upon this army that the United States now depends to render the first great service which this country can offer in the fight for civilization.

That service is the raising at once of the funds for the first liberty loan.

Every one of these 35,000,000 depositors is probably able, out of future savings, to take one or more of the \$50 bonds.

They must not be paid for, in any considerable amount, out of present deposits, as that would weaken the banks.

If each of the smaller depositors took one of the bonds, this, with what the larger depositors have already subscribed, would give the government many times the amount called for.

If one-third of the number of depositors in the United States each subscribed for the loan, there would be about 12,000,000 subscribers—the largest number ever subscribing to any loan in the history of the world.

The number of subscribers to the last loan of Germany (with 65,000,000 inhabitants) was 6,000,000.

In England (with 47,000,000 inhabitants), the great British loan of \$5,000,000,000 had eight million subscribers.

The United States, with over 100,000,000 inhabitants, should have at least 12,000,000 subscribers to the first liberty loan.

Every true American should take the greatest pride in being one of the subscribers, as an act of patriotism.

It is the same spirit in which every man with a musket crowded on to Lexington in the birth-hours of the republic.

It is an essential and substantial way of helping the revival of the soul of America.

SECURITY.
If the bond were only fairly good, if even there were some doubt about its ever being paid; and if the interest rate were much lower, it would be the duty of every citizen to subscribe.

But it is today the best bond in the world. The interest rate is high for such a bond and it is free from taxes of every kind.

No such opportunity has ever been offered in any country in the history of the world to combine patriotism, safety and good income.

BENEFITS.
The bond will appreciate in value.

From 40 years' experience we would certainly look to see these bonds go to a premium after the war, as the one bond that will be the most desirable of all the world's issues.

And in the meantime, as commanding the highest credit and lowest terms for borrowing at the banks, they will be in demand as collateral by borrowers, who will be willing to pay a premium for them in exchange temporarily for other collateral, in order to make loans at the banks at the lowest rate.

In addition to this, the bonds are convertible into the bonds to be issued in the future, if the government then has to pay a higher rate than 3 1/2 per cent.

This will probably be necessary. The bonds bought now will thus, by exchange, become even more valuable.

DANGER.
There is another reason why every citizen should do his part in quickly furnishing the funds for the war. It is because the country is in danger.

Not immediate impending danger, but possible and very real danger.

Russia is weighing in the balance.

Germany is surrounded by a ring of iron.

The hope of defeating her has been dependent upon keeping this ring unbroken.

If Russia should make a separate peace, her food stores would be opened to Germany. A million and a half German prisoners there would be released, and these and German armies now employed against Russia would be hurled against France and England, who might not be able to withstand them.

The submarine might win out and starve England. In such cases as these we might be left to fight Germany alone.

The frightfulness with which Belgium and France have been outraged would then be hurled against the shores and cities of America.

These things are not probable, but they are possible, and every person in the United States must do everything in his power as it comes along, to help in winning the war.

The thing to do now is to subscribe at once to the liberty loan.

Then get as many more people as you can to do the same.

YOUR HEALTH

(By JOHN S. HUBER, A. M., M. D.)

Unbought health is a deity presiding over the affairs of men.—Cicero.

Kidney Stone.
Kidney stone or calculus forms in the kidney. It is composed of uric acid, exalts of lime or phosphate. It is more common in men; occurs late in life; gout and overindulgence in food are causes. A small stone gives little or no pain; and one realizes its presence only when it is passed in the kidney excretion. But generally as soon as the stone enters the passage from the kidney to the bladder there is accompanying suffering until the bladder is reached; and then the "colic" is renewed until the stone is passed from the bladder with the urine. The latter is like acid to contain blood. The pain is felt in the back, below the ribs on the affected side; whence it passes down forward to the groin and the thigh. A mild liquid or semi-solid diet is necessary until the patient is fully recovered. There may be stricture, which will be made evident by sediment in the urine. For this serious condition the family doctor must attend. And he may have to call in the surgeon.

Anyone who has once had kidney stone must fear recurrences. These are best avoided by temperate living, by the drinking of at least six glasses of water daily, and by judicious exercise is another right measure.

QUESTIONS AND ANSWERS.
Cold Feet.

What is the cause of my hands and feet "going dead," that is, the blood receding from my extremities in cold and damp weather. It is very uncomfortable and takes considerable exercise and warmth to get the blood to circulating freely again.

Answer.—Cold hands and feet (with or without sweating) if persisting for months, is due to nervous fatigue (neurasthenia), anæmia, chronic digestive disturbances, rheumatism or gout, heart or lung affections that interfere with the circulation. Many nervous people get cold extremities suddenly and temporarily by reading higher literature, or after shock or collapse or hemorrhage. Sometimes one will complain of cold extremities when they are warm to the touch; doctors call this paræsthesia, and it is a hysterical condition.

Valvular Heart Trouble.
I am 35 years old. At 20 I contracted rheumatism, which affected my heart. I have not since been sick, but sometimes I feel as if there is something wrong with my heart. Is there a cure for such troubles? 1. I smoke, not cigarettes; and I inhale the smoke. 2. Can any good doctor treat such troubles? 3. Could I secure a life insurance? 4. Would I be rejected for military service?

Answer.—There is no cure in the sense that the valves can be restored to the normal. But by leading the hygienic life anyone with such an ailment is like to live comfortably as long as the most of his neighbors. 2. You must not smoke; I do not know the extent of your valvular trouble, but it is possible that any person thus affected will, if he inhales tobacco smoke, "go off the handle" almost any time. Inhaling smoke has a very bad effect on even the healthy heart. 3. Why not? 4. Perhaps you will find, if rejected, probably by reason of higher education, that one of the best ways to get a higher service, and then the military surgeon will examine you and decide if you are fit.

EVENING CHIT-CHAT

(By RUTH CAMERON)

Summer Hats in February.
The old order changeth, yielding place to new
And God fulfill himself in many ways.
Least one good custom should corrupt the world.

Long ago when I first read "The Passing of Arthur" I loved that passage, mostly, I think, because it sounded so beautiful when one said it aloud.

I still love it, and now not only because of the music but because I begin to glimpse the meaning.

I think that passage belongs to the "Grow old along with me, the best of all life is yet to be."

The first law of life is continual change. The world is changing all the time. It is not the same today as it was yesterday, nor quite the same this minute as it was when you started to read this talk.

Out of Tune With the Infinite.
And you've got to acquiesce in these changes unless you want to be hopelessly out of tune with the infinite.

When I tell you what started me on this train of thought you may think it is a very lofty sermon for a very simple text.

A neighbor of mine who is on the far side of 35 was talking about the way people are putting on summer hats in February.

"It makes me mad," she said. "It's so silly. Why they put them on earlier every year. I make it a rule not to get mine before the middle of April, the same as I always have."

And she threw her head back with the air of one who has shown her devotion to a worthy principle.

Let Her Day When She Wants and Let Other People Do the Same.

Now of course there is no reason why she should buy her hats earlier if she doesn't want to.

But why make a virtue of it? And why be "mad" because other people buy early. There's nothing wrong about that change; and it's the most foolish waste of energy to set your mind against changes that are not intrinsically harmful.

The person who wants to grow older gracefully need not change her mode of living or thinking according to each new style, but she must be tolerant of other people's modes of living and thinking.

"When I Was a Girl Forty Summers Ago"
"We didn't use to do so-and-so"—didn't it try your soul to have someone always saying that to you with an air of great superiority when you were young?

Surely then you will never say its equivalent to other young people.

The old order changeth, yielding place to new—in little things and big.

Be tolerant to it. You might just as well. For your interference will only turn on you and rend you.

THE SEARCHLIGHT

Finding the Light.
Did you ever come home in the dark and break your shin against the furniture while groping for the electric light switch? Sometimes you do. To save shins and furniture and needless profanity, an electrical manufacturing company has perfected a light switch that glows in the dark. The effect is secured by the inclusion of a very minute quantity of a radium compound in one of the screws of the switch. When the light is turned on by a pull-chain, the radium is included in the little ball on the end of the chain. Either of these devices shines like a tiny star in a dark room.

Uncle Sam has just launched a new \$20,000,000 battleship, but it won't be ready for service for another year and a half. Armies and battleships are not "made" in a day or a week.

A government decree in France requires that letters shall be written on a single sheet of paper. Among other things, the effect of the great war is toward a concentration of thought and expression.

A married woman may not know it; but she can always attract her husband's attention by keeping perfectly still.

Some of these food speculators will be having cold sweats if congress passes the proposed food control law.

The proposal to place a heavy tax on excess profits sounds good to a lot of people, simply because they have no excess profits to be taxed.

Civil war has broken out in China. As if there wasn't enough in the big war to be around.

Floating the Liberty Loan

(By Frederic J. Haskin.)

Washington, D. C., May 25.—What are you going to do about it? That is the attitude of the world toward the United States today. We have announced our intention of playing a decided part in the war, and it's our turn to move. The first thing before the nation is this little matter of absorbing a \$2,000,000,000 bond issue and calling for more.

Congress passed with a rush the measure authorizing the raising of \$2,000,000,000. While every other proposed law was being torn to pieces and patched together again and raked by cross-fires of criticism, this immense financial measure went thru on a unanimous vote. It was the biggest single financial bill ever passed by any national legislature, and it went thru in quick time with but one voice raised in dissent—a characteristically American proceeding. There was plenty of pride over that, and just a little too much tendency to regard the achievement as achieved. That was only the beginning.

Then offers to subscribe began to pour in, for the time they came at the rate of half a million dollars a minute. That sounded pretty well, too, and the country was proud of it, but there was a little too much tendency to take it for granted that this rush of offers would take care of the need. A great many people actually got the idea that the loan was over-subscribed, that there was neither necessity nor use in further subscriptions. That idea was quite incorrect. The loan is not over-subscribed today nor anywhere near it. There are hundreds of millions of dollars still needed. The American people must act. Nobody, probably not even the German emperor, who rarely seems to get his news from America straight, doubts for a moment that this two billion dollar issue will be fully subscribed. The country is like a grave asperion on the patriotism and business sense of the American nation, and those who do not give us credit for the one usually admit that we have the other. The real danger lies in over-confidence. Everybody is so sure that the bonds will be fully subscribed that he leaves it to his neighbor to do the actual subscribing. The nation must get away from that idea, say the officials in charge of the loan. It is every man's duty to put down his name for as many bonds as he is financially able to buy, and it is every man's duty to encourage his neighbor to do the same. The nation must get away from that idea, say the officials in charge of the loan. It is every man's duty to put down his name for as many bonds as he is financially able to buy, and it is every man's duty to encourage his neighbor to do the same.

Bonds Are Attractive.
The men in charge of the loan do not like to talk about obligation and duty in connection with it. They say new bonds are an attractive proposition financially in many ways. Nobody is giving anything away by buying a bond. The buyer is doing a patriotic deed and getting a gift—investment paying 3 1/2 per cent, free from taxation, with the finest security in the world. If you are a man who puts it, should the time ever come when the United States will not be able to pay interest and principal on these bonds, the world will be in such shape that none of us will care what happens.

Treasury officials want to see this issue heavily over-subscribed. The country ought to make sure that this is the case. America could strike a telling blow in this war simply by calling for twice as many bonds as the government offers. Which new item would make better reading in Berlin—"Bond Issue Barely Floating" or "Subscriptions Flood United States Treasury—America Wants Three Bonds for Every One That Government Offers"? The last item would have as great a moral effect in Germany as the loss of a battle. It is America's first chance to strike.

FLING AT SOCIETY GOSSIPS APPEALS

Aurora Dramatic Club Actors Give Good Presentation of "A School for Scandal."

Play for the Benefit of Aurora Hospital to Be Repeated at Fox Theater Tonight.

"A School for Scandal," Richard Brindley Sheridan's sparkling fling at gossiping society folk lost none of its fine ridicule in its presentation last night at the Fox theater by the Aurora Dramatic club.

A well-filled and appreciative house roundly applauded the actors as they swung spiritedly into the lightening action leading up to the climax of the play. Momentary dropping of cues was easily concealed in view of the circumstances, while in more than one case the lapse was so skillfully concealed by the actors as to pass unnoticed.

The major portion of the cast spent the greater part of the night preceding the play in a tireless and exacting rehearsal. Owing to the excellent presentation of previous plays by the dramatic club, more is expected of it than is the case in most amateur theatricals and they are to be doubly congratulated for the exceptional manner in which the play was handled last night.

Dr. George M. Guild as Sir Peter Teazle excited gales of laughter by his quarrels with his younger, and fetching but extravagant wife, Lady Teazle, in the person of Mrs. John Myers. Bernard Gums as Sir Oliver Surface, the rich uncle testing his nephews, Joseph and Charles, played by Leonard Applequist and Verne Thompson, was a central figure in several capably played humorous scenes. Comedy in its more violent stage was introduced in a scene of drunken revelry, vigorously played by Charles, Donald DeFries as Careless, Herbert Gilbert in the character of Moses, a Jew money lender, Julian Gilman as Sir Harry, and Thomas Conklin, as Trip.

The "school," where scandal formed the entire curriculum, was well portrayed. Russell Lintott as Crabtree, Miss Eva Barnat as the designing Lady Sneerwell, Lillian Shults as the candid Mrs. Candor, served their purpose in emphasizing the more upright characters of Marie, taken by Miss Marguerite Rasmussen, and Maurice Lord as Rowley.

Evelyn Sylvester was a typical maid, ably seconded by the servants, Charles Quacknabush and bush and William Klammer.

It will be recalled that in the familiar story Sir Peter Teazle, a wealthy elderly gentleman of kindly nature, has been captivated by a young and spirited lady, full of life, beauty and fascinating manners, whom he marries, but whose expensive tastes and frivolity bring to him considerable trouble and uneasiness, and not a little publicity.

Attractive and Designing. Lady Sneerwell is an attractive widow, of wealth and position, but a designing member of a flippant society, having for her accomplice, an author, most appropriately named Snake. She has under her guardianship a young heiress, Marie, whose amiability and grace win the admiration of all, more especially of the two brothers, but with different motives; with Joseph it is the prospective fortune, with Charles, pure affection and the passion is reciprocated.

Mrs. Surface, an esteemed friend of Sir Peter's, upon dying has left, as it were, to his guardianship, two sons, Joseph and Charles, the one with the blindest manner and smoothest voice, universally well spoken of—the other, dashingly handsome, devil-may-care young fellow, with few friends, little money and less character; yet withal, kind-hearted, frank and honest.

To further his designs, Joseph pretends affection for Lady Sneerwell, to conceal his affection for Marie

from his brother. Lady Sneerwell is aware of this, and assists him in having herself a very strong passion for Charles.

Sir Oliver Surface, the uncle of the two men, returns unexpectedly from India, and hearing of the diversity of opinion expressed with regard to his nephews, tests them. For this purpose he arranges with Rowley, who has been an agent for the estate, and with Moses, a money lender, to appear upon the scene as Mr. Premium, a gentleman having capital at hand to assist young men of fashion and extravagance in the hour of need. By this skillfully contrived plot he is introduced unknown to Charles, and purchases all that the young man has to part with, but a portrait of himself (Sir Oliver), which, much as he is in need of money, no inducement whatever will cause Charles to surrender. This affection wins the old gentleman's heart, and he finds afterwards from testing his other nephew, Joseph, that with all his dissipation and extravagance, Charles is the more honorable of the two.

Hints at Love. Joseph, carrying on a flirtation with Lady Teazle, induces her to pay him a visit to his new library. During this interview he takes the opportunity of hinting his love, but the unexpected arrival of Sir Peter compels him to conceal her behind a screen. In the course of the conversation he is compelled to admit to the old gentleman that he does indulge in a little levity, and that his unexpected arrival has forced him to conceal a little French manner behind the screen, but he would not have the world know it. Sir Peter is tickled by the idea, but the mirth is stopped by the arrival of Charles, and he takes refuge in a closet. Previous to this he has told Joseph that he fears his wife's affections are being estranged from him, notwithstanding which he secretly leaves her. All of this is overheard by Lady Teazle. In the interview which takes place between Joseph and Charles, the subject is alluded to, and in order to stop the unpleasant hints which Charles throws out, he tells him that Sir Peter is present and he is dragged from the closet. Lady Sneerwell arriving, Joseph leaves to receive her, when Sir Peter, as a joke, tells Charles of his brother's levity and before he can prevent it, the latter, to gratify his curiosity, throws down the screen at the very moment Joseph returns, and reveals Lady Teazle. From this point explanations ensue, matters are made up, and the merits of Charles and the propriety of Joseph fully established.

The play will be repeated at the Fox theater this evening.

The cast: Sir Peter Teazle, Dr. George M. Guild. Sir Oliver Surface, Bernard Gums. Sir Julian Backbite, Sir Harry, Julian Gilman. Joseph Surface, Leonard Applequist. Charles Surface, Verne Thompson. Crabtree, Russell Lintott. Rowley, Maurice Lord. Careless, Snake, Donald DeFries. Moses, Herbert Gilbert. Trip, Thomas Conklin. Servants, Charles Quacknabush, William Klammer. Lady Teazle, Mrs. John L. Myers. Lady Sneerwell, Miss Eva Barnat. Mrs. Candow, Lillian Shults. Marie, Miss Marguerite Rasmussen. Maid, Evelyn Sylvester. Dancers—Maurice Lord, Anna Mack, Julian Gilman, Eva Barnat, Herbert Gilbert, Alice Ganser, Donald DeFries, Mrs. John Myers. Director of cast, Mrs. T. J. Barker. The proceeds will be turned over to the Aurora hospital.

BROKEN MAN TO LIVE

Cornelius Lennan, 40 years old, who fell off the "blind baggage" of a Burlington railroad passenger train Wednesday night at Plano, will recover. It was announced at the St. Charles hospital today. Altho he sustained numerous fractured bones and bruises he has no internal injuries, the attending physician says.

Presbyterians for Suffrage. (By Associated Press Lead Wire.) Dallas, Texas, May 25.—By a large majority the Presbyterian church in the United States of America (north) today adopted a resolution declaring for woman suffrage.

PLAN NEW GARAGE

Nicholas Williams, of Williams & DeJarid, proprietors of the River Street Garage, and the Aurora Motor Transfer & Storage company, at 53 and 54 South River street, has purchased the property in South River street, opposite his garage, and will build a new garage there. The property was purchased from Edward Artlip and was formerly occupied by him with a livery stable and feed barn.

The lot is 75x150 feet. Mr. Williams may not build until building conditions are more favorable. It was said this morning by a member of the firm.

FLOUR GOES LOWER

Another small drop in flour prices today comes as more encouragement to the man whose purse strings have been under the living cost strain for the past several weeks. From the high mark of \$18 a barrel, wholesale, flour is down today to \$15.40 per barrel, 20 cents cheaper than yesterday. The falling off in the wheat market is responsible for the drop in prices.

A local flour jobber this afternoon said that indications are that flour will come down still more during the next few days. At one store this afternoon it was said that they were charging \$1.35 for the 49-pound sacks of standard grade flour.

"EMPTIES" IN DEMAND

A meeting attended by John Knell, representing the Aurora Brewing company, and representatives of the local agencies of other breweries was held this morning at which it was decided to prosecute all persons caught stealing beer bottles. The price of bottles has been increased to such an extent that there is a shortage and "big demand." Local agents say that several carloads have been stolen. The arrest of a man, Barbara, 23 years old, was ordered today. He is accused of stealing cases of empty bottles and carting them away in an automobile. The Aurora Brewing company will prosecute Barbara. Mr. Knell said.

Any man who is looking for trouble can usually find it by rubbing the wrong way the first man he meets.

TAKE JESSE CURRY ON WOMAN'S CHARGE

Mrs. Lillian Cone Gets State Warrant When Blacklisted Husband Buys Drink

Says Her First Mate Was Allowed Liquor at Hotel Bishop Bar—Case Unusual.

A warrant charging Jesse W. Curry, River street saloonkeeper, with selling liquor to a man on the blacklist was issued by William Heiss, justice of the peace, this morning. Constable W. E. Orr went out to serve the warrant this afternoon. Mrs. Lillian Cone, 288 South Lake street, is the complaining witness. She says that her husband, William Cone, 43 years old, a teamster employed by the Thompson Transfer & Storage company, bought liquor at the Hotel Bishop bar, conducted by Curry, February 16, two days after his name had been placed on the blacklist.

Husband on Blacklist. "I signed the complaint to have my husband placed on the blacklist February 14, last, and the police put his name on the list the same day," Mrs. Cone said. "My husband got drunk February 16, and I have proof that he stood at the bar in the Curry saloon and bought drinks. He was also in one of two other saloons on River street, but I have been unable to get the proof. Since the day my husband was in the Curry saloon he has not been drinking."

State's First Move. Assistant State's Attorney J. Bruce Amell, who authorized the issuance of the warrant, said today that it is the first time the state has taken action in Aurora for violation of the "blacklisters law." The Illinois statute provides a penalty of not less than \$20 and not more than \$100 for each offense.

Fix Rate Hearing Date. (By Associated Press Lead Wire.) Springfield, Ill., May 25.—The state public utilities commission today set the week beginning June 4 for hearing in Chicago on the proposed 15 per cent general increase in Illinois freight rates.

ENGLISH LUTHERAN CONFIRMATION SUNDAY

CLASS OF 14 BOYS AND GIRLS TO TAKE PART IN PROGRAM.

At the English Lutheran church Sunday morning a class of 14 boys and girls will be confirmed at the usual hour for services. There will also be the celebration of the Lord's supper, preceded by the regular confessional sermon.

The Rev. Lester Hogenshead, western superintendent of missions, will have charge of the services, assisted by the student pastor, Fred Lindke. The Luther league will meet at 6:30 p. m., a devotional meeting led by Mr. Lindke being held. At 7:30 p. m. the Woman's Missionary society will hold its regular meeting.

MILITARY PROGRAM

The First Presbyterian Sunday school is planning to give a military touch to the opening exercises next Sunday. The church will be appropriately decorated and representatives of the G. A. R., United States navy, national guard, Boy Scouts and Red Cross will be on the platform. Master Paul Divena, the boy cornet of Mooseheart, will give the assembly call and retreat. Many of the young men of this church have already enlisted in various departments of the army and they are to be recognized.

URGE EGG CANNING WHEN PRICE IS LOW

Preparation Known as "Water Glass" Best for Pickling Eggs, Says Poultry Expert.

Put Eggs in Ordinary Mason Fruit Jar and Four Preparation Over Them—Will Keep Long.

The wisdom of canning eggs is apparent. Hundreds of dollars can be saved in every community by putting down eggs when they are at the lowest price. Use fresh, fertile eggs. The water glass method has been satisfactory when used in the following way: Pack the eggs in half gallon Mason jars, putting them into the jars carefully with a long handled spoon so as not to crack the shells. Into ten measures of freshly boiled water stir one measure of water glass, which can be bought at any drug store. When the solution is cold, pour it over the packed eggs, place the rubbers on the cans, and tighten the lids. This type of container is desirable for a small family or where the eggs to be preserved are gathered a few at a time. For they should be put up while fresh. May or June eggs are considered best for preserving.

Eggs to be preserved for a later market may be packed in stone jars, which will hold several dozen, and covered with the water glass solution. The jar should then be covered with the stone lid and sealed with paraffin or, if no fitted lid is at hand, a pane of glass will answer. It is necessary to prevent evaporation which would cause the solution to become too strong.

One poultry man reported successful preservation of eggs for market by using the water glass method with five-cent wooden candy pails as containers. He covered the packed eggs to a depth of two inches with the water glass solution, then put on the wooden lid, and covered that with a paraffin cloth. These were kept sealed until they were taken out for market.

WATERMAN

Some of the talented, energetic boys of the community have gotten together and are organizing a band. They have had one meeting. They are now about 14, and will be glad to have anyone join them who cares to study with them. This is something Waterman has lacked, a good band. With a good instructor, Waterman boys can make good in this respect and soon have a band of which the village will be proud. A little encouragement and a helping hand will be greatly appreciated by the boys now.

Waterman boys regarding enlisting in the army. Several of the boys gave their names. They went to DeKalb Monday evening to take the examination. All passed. Those who enlisted are: Delbert Garner, Lester Liddick, Lars Tveit, Samuel Knaus, and Benjamin Green. This makes a total of 13 including George Smiley, who also enlisted last evening. This would seem to be a big representation for Clinton township. It's even better than neighboring towns at any rate. The boys will continue to drill here under the direction of Corporal Welsh.

First steps were taken toward the organization of a branch Red Cross society Wednesday afternoon. Two auto loads of Sycamore folk met with the Waterman people in the Methodist church. The Reverend Riet of Sycamore addressed the company and

HE DESCRIBES LIFE OF COAST SOLDIER

Auroran at Fort Monroe Gives
Pointers to Boys Who Are
Enlisting in Army.

Fort Monroe, Va., May 21, 1917. Editor The Aurora Beacon-News: I have heard from my parents, Mr. and Mrs. Hans Anderson of 215 Woodlawn avenue, that quite a few boys from my home town of Aurora, have joined the United States army, and it makes me feel that I ought to write a letter to the boys left back to give them an idea what army life really is, so I take this method of writing to them.

I enlisted in the army on the twenty-third day of November, 1916, and am now serving in the coast artillery corps at Fort Monroe, Va. I have been the company clerk of the Eighth company for the last five months and I am sure I like the life. I trust that you will kindly publish the following in your paper:

To the boys back home: There may be a few of you who have an idea of what army life consists, but for the benefit of those who do not know and who are probably more or less interested now that we are engaged with Germany in a great war, I will try to write a few letters of interest to you.

Many people have an idea that the soldier of today should be classed by himself, but I have found the soldier's life the life that every young fellow should at least try. The soldier leads about as clean and healthy a life as any class of people. Of course, there are always a few thrown in among us who are not of the best class but it does not take long for a young fellow to pick out good fellows for his companions.

I will try to give you a soldier's daily life. To begin with, a soldier has his regular hours for doing his work and it has to be done in the certain time set.

We have our first call or "pile out" time, as we call it, at 6 in the morning. You want to be sure and get up at 6 and dress and make up your bed in 10 minutes every day. I do not want to make you think that you merely heap your bedding in a pile on the head of your bed; you fold it up neatly each morning. Then you fall out for reveille and say "Ho" when your name is called. But the best is yet to come.

You have a few minutes' setting up exercises or athletics every morning, except Sundays, surely the best exercise for a soldier or anyone.

Next comes room-orderly jobs, that is, you have your prescribed duties to attend to before breakfast, such as sweeping out from under your bed and dusting your wall lockers and wiping off the windows. Then last comes the cleaning of your bed. Special attention is paid to the cleaning of every spot on your bed. Then you

will hear the breakfast bell ring, the best and most popular call in the army; then you line up for the "eat," which, of course, does not mean that you go down and help yourself to all the cream, sugar and cornflakes or cake, but each man gets a couple of fried eggs (not cold storage either), three or four biscuits, butter, coffee and cornmeal or some other good foodstuff. And always a variety and makes you feel ready to tackle a good day's work.

That about eight bells, artillery call is heard, meaning that you are to fall out again and get ready for drill. You go to your respective gun or mortar batteries and have a little science work; that is, drill for a few hours each day. I call it science as it really is. It does not consist of going out and pushing a few buttons on the wall and seeing a big battlewagon sinking out in the bay, but it takes from 20 to 30 men with their minds, not on their sweethearts or the chickens back on the farm, but on their certain duty, to make each shot count. It would certainly please me to be able to explain plainly just how it is done, but I am unable to do so now. But you may be able to gain a fair idea of how it is done, by the following: Certain data is on the plotting detail, which consists of about eighteen men, and some of the data comes about three miles from the pit, or guns. Then after a few seconds of figuring of each man the data is ready for the pit. And this data is started and ready at the pit in 25 seconds, so that a shot may be fired every 30 seconds. Then you have an hour rest for dinner.

Hoping I will be able to write you another letter next week, I wish to remain, as ever,

"KID" ANDERSON,
Eighth company, Fort Monroe, Va.

MR. MAX ANTOKES

Duffy's Pure Malt Whiskey

In emergencies requiring immediate relief rarely ever fails in efficacy, for Duffy's Pure Malt Whiskey is certainly a valuable medicine to have at hand in case of emergency and no home should be without it. Recently I was stricken with cramps while playing at a dance in a New Jersey town and thought I should die as the nearest doctor was two miles away. I was unable to obtain any relief until a friend gave me some Duffy's Malt which relieved me in a short time and enabled me to continue playing. I am very grateful and recommend Duffy's Pure Malt as a reliable medicinal whiskey. Max Antkes, 1557 Crotona Ave., Bronx, New York.

"Kio-Yio-Viel Get Me 'Gels-It' Quick"

2 Drops Make Corn "Fall" Off!

"I've joined the Never-Again Club. Never again will I use anything for corns but 'Gels-It'. Put 2 drops of 'Gels-It' on and from that second the corn begins to shrivel, in-

"Oh, Don't Touch It! It's So Sore!" "Use 'Gels-It' and It Will Never Be Sore!"

stead of swelling up like a little white sponge. Then it loosens from your toe—and, glory hallelujah! the corn comes off as though you'd take a glove off your hand!"

Yes, "Gels-It" is the corn discoverer of the age. "Gels-It" is sold by many times than any other corn remedy in existence. Try it and you'll know the reason why. It takes two seconds to apply it, and it dries at once. That's all. Don't experiment—follow the experience of millions and use "Gels-It."

"Gels-It" is sold everywhere, 25c a bottle on receipt of price by E. Lawrence & Co., Chicago, Ill. Advertisement.

Sold in Aurora and recommended as the world's best corn remedy by Grimm's drug store.

WHEATON CHURCH DANCING FAVORED

Pastor Leaving Presbyterian Pulpit Declares New Institution Is a Success.

Have Billiard Tables Also in Church Parlor to Attract Young Men.

Despite opposition both from within and without dancing and theatricals will continue to be sanctioned by the Presbyterian church of Wheaton. The Rev. Robert L. Shepherd, who has resigned as pastor to take effect August 1, denies that his action was due to opposition of some members of the flock to the introduction of dancing in the social room in the church basement. The pastor says he is leaving solely because of his desire to return to teaching in the Missouri Valley college at Marshall, Mo., a Presbyterian institution.

As a proof that he is not resigning because of the dancing controversy, Mr. Shepherd had resolutions passed by the church at its last meeting approving the policy of the pastor and voting to continue the practice of keeping the parish house open for dancing, billiards and theatricals.

In a signed statement the Rev. Mr. Shepherd describes his policy in the social life of the church and expresses his opinion that the outcome justifies his wisdom.

"As to the social policy adopted by the church five years ago when a social room was fitted up in the church basement, where the young people were allowed to dance, and

billiard tables were installed, there seems to be an almost unanimous opinion on the part of the people here interested in the church that it has been a profitable experiment," he writes.

MISSING WOODSTOCK BOY LOCATED HERE

Harry Adams, 15 year old son of Charles Adams, of Woodstock, who has been missing from home for a month, has been located here by the police. He is living with a well known east side family and is working for a local business house. In response to a telegram from Chief of Police McCarty last night the boy's father said he was satisfied to allow the boy to remain here as long as he is doing well and is not in bad company. G. W. Nichols, 25 years old, who was suspected of kidnapping the boy, was located in Chicago last night but will not be arrested. Harry Adams, 15 year old Chicago boy, who was taken into custody when he called at the local post office for Michael mail Wednesday, was released from custody last night and went to work in a local hotel this morning.

GERMAN SOCIALIST CONVENTION SUMMONED

(By Associated Press Lead Wire.) Copenhagen, via London, May 25. 7:55 a. m.—The Berlin Vorwarts announces that a national German socialist convention has been summoned for August 12 at a place not yet decided on. The convention, if permitted, will be the first of its kind held during the war and will go far toward settling the vexed question as to whether the radical or regular organization represents the party.

Suit of Black Saltwater Satin with Blue Trimming and the Balloon Bloomer.

Red, White and Blue Suits Will Make the Seashore Gayer Than Ever This Season—Pockets a Practical Addition—No Beach Costume Complete Without a Cape.

SHARKS last year and possibly submerges this; but nothing dismayed the girl who dotes on swimming goes straight ahead and prepares her bathing costume, determined to wear it, even if she has to seek an inland lake for her sport in the water. No fear but that there will be plenty of sea-bathing for those who love this wholesome and healthful sport, though the deep-sea swimmers may have to confine their frolics in the waves to the gentle splash near shore. But it is not the deep-sea swimmers who take most interest in bathing suit fashions; styles for sand and sea appeal most to the women who spend more time on sand than they do in sea, and some of the new costumes are well calculated to make a sensation on the summer beach—which is all that their prospective wearers ask of them. The Balloon Bloomer Has A Silhouette All Its Own. Probably the most sensational of

Swimming Suit of Knitted Jersey in Navy and White

Flannel Bathing Suit in Patriotic Red, White and Blue with Parasol to Match.

the season's bathing suits is the model with balloon bloomers and no skirt. There is nothing immodest about these bloomers, sans a skirt to hide them. They are so full that a bifurcated garment is not suggested, at all—indeed, the lady looks more as if she had encased herself from waist to knee in a barrel—or a keg. The bloomers are enormously full and are gathered into the waistband and again into shirings at the knee. The material, usually crisp taffeta, is pulled out to the extent of the gathered material all around, midway between hip and knee and though the effect can scarcely be called graceful, it is supposed to be decidedly fetching and chic. One of these bathing suits is

pictured, a model of black salt water silk with trimming in bands and narrow frills, of blue satin.

Balloon Bloomers, Dangerous. Any bloomer is more or less a danger to its wearer in salt water; the balloon bloomer is decidedly so and a word of warning concerning this new type of bathing suit is in season. You are doubtless familiar with the way water-wings act in the water. After being blown up and immersed they will keep their buoyancy until allowed to become dry and a small pair of water-wings will bear up a grown man in the water. Now a closely woven fabric made into bloomers acts precisely the same way. Wear the bloomers into the sea and come

out after your bath and dress immediately and there will be no danger at all. But on no account enter the water from a height (like the end of a pier or a boat) after the bloomers have become wet from immersion. The swift passage through the air may force air into the bloomers, at waistband or knee and the bloomers will immediately fill out exactly like a pair of water wings—and will retain the air which cannot force its way out again under water. As the bloomers are worn low on the body, they will keep the legs and feet afloat, the heavier part—torso and head—going under. For anyone but a strong swimmer this will be disastrous and in more than one instance a tragedy has almost been brought about in this way.

Knee Breeches Must Come Below The Knee.

Much safer than bloomers are knee breeches—if one must have something new and "different" to mark this season's costume. But to be quite modern, knee breeches must come several inches below the knee, and be

buttoned at the outer side. If they do not show below the skirt, they might as well be ordinary swimming trunks for all the benefit in smartness they will be to the bathing costume.

Knitted Jersey Suits Ideal For Slender Maids.

Now that the summer girl has borrowed the summer man's bathing costume—with reservations, and boldly appears upon the beach in a clinging jersey and tights of knitted worsted, it is conceded by everybody—or almost everybody, that she has shown good sense in adopting the very best and most sensible type of swimming attire. If worn by a slender figure and if worn not too tight, so that the suit does not cling conspicuously, a knitted jersey bathing costume is pleasing in every way and is neither immodest nor outrageous. The modern woman dresses properly for the sport she pursues, and when she swims, she should be as comfortably and as safely attired as when she rides, or golfs, or motors. But not for the fat woman is the knitted wool suit—unless she chooses to make herself grotesque. Redundant curves—and a clinging jersey—are a combination that can only arouse laughter, or pity, from all observers.

The Jersey swimming suit pictured is dark blue with a neat border trimming in white. The tunic is of good length and is slashed at each side, the garment fastens at the shoulder and slips on and off over the head. Such a suit is easily taken care of; it may be put through a wringer, shaken out and then rolled into a rubber case

and there will be no dripping and oozing out of water as with a silk or satin suit. Beneath the jersey costume must be worn a one-piece knitted garment, slightly snugger in fit than the outer tunic, to keep the lines of the figure trim. Usually the stockings are in one with this undergarment.

Hand Knit Bathing Suits This Season.

The girl of the hour—if she is not knitting a bathing suit for herself. These hand-knitted suits promise to be the fad this summer. They are not harder to knit than sweaters—and every maid can knit a sweater now! The tunic is sleeveless and has a V shaped neck opening. It slips over the head, and should be long enough to fall well below the hips. The lower edges must be left open at the sides, or one may widen, a stitch to a row for twenty rows, so that the tunic will not cling at its lower edge. The knitted tights do not offer any serious complications to a knitter who has already achieved a sweater. They need no shaping if one is slender—and if one is not, a knitted suit should not be worn! Following any pattern or guide to go by, simply knit four openings; attach two together for each leg, the side seam running all the way down. Then attach the legs together with seams running a third of the way down, for back and front; and lastly sew up the inner leg seams. Put a facing around the top and run in a drawstring; or run a narrow elastic in and out through the knitted stitches and sew the ends together.

Flannel Bathing Suits Again.

The 1917 flannel suit is a far cry

indeed from the shapeless garment of dark blue flannel which used to huddle itself out for a quarter at all public bathing resorts. The modern suit is of softest, finest flannel, scarcely heavier in the water than silk. The model pictured is red, white and blue in color; for the red, white and blue will be seen on the beaches this summer, not only in flags waving overhead but in fetching costumes for surf and sand. This one is especially fetching, with its clever combination of blue and white flannel, red buttons and red satin piping. The belt, drawing in the loose frock to a low waistline, is of white flannel and red flannel. The smartly tied silk cap is made of blue satin and the parasol has red, white and blue stripes. Another bathing suit pictured, a model of green and blue striped silk, is duplicated also in red, white and blue, the stripes being red and white and the plain silk blue, while instead of the little buttons, stars are embroidered in white all the way down the front. The pictured suit is a pleasing combination of blue and green and every woman swimmer will admit the convenience of the pockets in which may be slipped bath house key and handkerchief—for after a battle with the surf even a sopping wet handkerchief is better than none at all. Do not buy a colored bathing suit without making sure the seams are stitched with silk; cheap thread may "run" when wet, or may shrink and your suit will be spotted.

The Modern Maid and her Vanity Kit Inseparable

THERE is a fine line of distinction drawn between cheek and nose—when it comes to powdering one's face. It is hard to explain why one procedure is unexplainably commendable and the other almost, if not quite, reprehensible, yet every woman admits the distinction. Both processes are supposed to make one more beautiful, yet many a woman will holdily apply powder to her nose while denying energetically that she ever touches powder de ris to her complexion. This sort of woman is likely to call the beautifier carried in her vanity kit, "talcum," for some how or other "talcum" is an innocent, harmless sounding word, lacking the suggestion of dashing, daring cosmetic implied by "face powder."

Probably the truth of the matter is that one powders her nose to keep it from being shiny, while the rest of the complexion is touched up with powder de ris to make it appear fairer and fresher than it is. Powdering off shiny is a sensible proceeding which can afford to be frank and honest about itself; touching up the complexion is perhaps—in some opinions—a shade less respectable. It is a fine and subtle difference—but every woman knows it is there. "My nose doesn't get so shiny," complains your partner at an afternoon bridge, delving down in her reticule for a lambdipad and giving a whisk to chin and cheek by aid of a tiny mirror. "Goodness, I must go and powder my nose!" declares the pretty girl in the restaurant, catching sight of herself in a big mirror. And forthwith she repairs to the dressing room and

comes back ever so much fresher up and somewhat plumper and whiter than when she glimpsed that shiny nose retrospectively.

But that is *why* "making-up" means nowadays—making-up, freshening up, bringing one's face up to the smartness and modernness of one's costume, so to speak. Paint and powder as they were once understood—in the days when cosmetics were never used by respectable women—are no more. An obviously "painted" face would arouse as much disapproval nowadays as it did in prim Victorian times—perhaps "disapproval" should be the word, rather than "disapproval"; for woman has become expert in the gentle art of "touching up" and has only scorn for a bunglesome job. Even the debutante has her complete vanity kit—though it may not be as complete as the vanity outfit of a third-season belle—and whether it be society girl, shop girl, business woman, trained nurse or household domestic, one is very likely to discover the inevitable powder box and puff among her belongings. And, of course, the shiny-nose horror is answerable for it all!

Naturally, the trained nurse powders her nose with a neat little puff kept in an antiseptic-looking case adorned with the Red Cross. In the lid is plenty of room for the indispensable mirror which is first aid to every powder puff. There is nothing that detracts from spic and span daintiness of grooming—the very essence of trained nursing attire—like an unsightly, shiny nose; and the more

spic and span—and pretty—a trained nurse is, the more estimable of her it is to keep her nose up to her general attractiveness of appearance. The business girl tucks her powder puff and little mirror in the upper left hand drawer of her desk where it is always readily at hand.

The very latest vanity case is attached to a bracelet. One may not wear a wrist watch and a powder puff bracelet at one and the same time—unless the wrist watch adorns the right wrist, which is not the conventional location. But as between a timepiece and a mirror, there can be no two opinions—feminine opinions at least—during the summer season when shiny noses prevail. The left wrist is the ideal place for a mirror and the new bracelet-vanity case is deservedly popular. The mirror may be consulted at any moment with the utmost ease and surreptitiously or not as one chooses; but then no one is surreptitious about a powder puff nowadays. Within memory is the time when one's powder puff was carried in one's stocking and one had to retire from public ken to use it. Never

so shiny might be one's nose but unless there was a dressing room available one could only endeavor to rise above it, and wait until one returned home to make repairs in one's appearance. Other places were found for the vanity kit as time went on. It hung for a season at one's belt, dangling in company with coin purse, court plaster case, smelling bottle and silver pen-cil, from a chateleine; it depended in the form of a locket from a necklace; it hid itself in the heart of a rose, worn as a corsage nosegay. For years it occupied a place of honor in the handbag. But that the bracelet is the place of places for powder puff and mirror, no one can deny—once the convenience of such a contrivance has been tried and acknowledged.

Strangely enough, the very best way to prevent a shiny nose is to polish the nose with cream beforehand—a sort of homeopathic conception that like-cures-like, if you will. But the cream must be a grainless cream; vanishing cream as it is called; and after it is well rubbed in, the nose must be powdered and then rubbed down with the lambdipad. The girl whose face perspires in hot, humid weather, should use the vanishing cream over forehead, cheek and chin also, rubbing in powder afterward with the lambdipad. The treatment will not only insure the face free from public ken to use it. Never

A Breakfast Tray and Table Combined

THERE is no trouble about holding a breakfast tray on one's knees, in bed, if the tray is one of the new wicker ones which rest on two end-pieces of wicker about eight inches high. The end-pieces are really deep wicker pockets into which may be slipped the morning mail, the silver for the breakfast service and the table napkin. The

tray, of wicker, has a glass bottom over gay cretonne—or an embroidered white linen cover may be used instead of the cretonne. Tray and end-pieces are so light that the whole contrivance is easy to carry upstairs and she who breakfasts in bed may sit comfortably, propped up by pillows, with her dainty little wicker table in front of her.

will also help to keep off sunburn and freckles.

She who uses powder—even the most innocuous talcum, may never, never go to bed, no matter how tired she is, without a thorough and vigorous face-washing. If she values her complexion, that is. One must sleep with clean, fresh skin; that much rest must the complexion have for eight or nine hours of the twenty-four—and the wise woman refrains from powdering her face until she dresses for the afternoon or evening. The business girl who uses powder should give her face its bath immediately on reaching home and spend evening and night with unpowdered skin. A little powder does no harm and often improves the appearance vastly; but powder used day after day and not well washed off at night will by and by make the skin coarser and less fair in tone.

JAPANESE SPORT HATS THIS SUMMER.

THE dashing sport hat of this season will be made of vivid and brilliant Japanese crepe, with just enough straw to make a trimming band around the crown. These hats are bright enough in color to please the summer girl's taste for striking headgear and they have that quality of newness and unusualness that also appeals to her heart. A Japanese sport hat in one of Manhattan's millinery shops windows this week, is made of cotton crepe with pink cherry blossoms splashed against a background of purple and beige. There is a band of natural colored straw around the low crown and on this band are sewed odd looking carved wooden buttons. The wide brim curves down over the face in shady effect. Another model shows black dragons against a flame red ground and has a band of black straw over-sewed with coral colored beads.

The Modern Way Of Carrying One's Powder Puff Is In One's Bracelet

Aurora Society News

Miss Mary McDowell, social worker, known personally to many women in Aurora, had the following to say about the recent action of the lower branch of the legislature in striking the enacting clause from the woman's eight-hour bill:

"It is not a very far-fetched move. It is not very intelligent and I cannot understand why they could not see that the same output of labor would result in the eight-hour day that will in 10 hours. The last two hours women are too weary to do good work. We are striving to build a world democracy but we cannot hope to build our own democracy on weary women and anemic children. We will continue the fight because the eight-hour day has to come."

Clever Work by Art Class.

It is said that not only have the public school pupils made the posters which have advertised "The School for Scandal," given its first performance last night at the Fox theater, but that they also made the quaint portraits used in the auctioneering scene. It is said that the sale is going very well for tonight's performance. While not having the leading role in the play, it might be remarked that Aurora has a decided bit of talent in the person of Herbert Oliber, far better known as "Herb." Herbert, can sell shoes to a woman who asks for a No. 8 when she requires a No. 6, but he has also that inborn ability to read lines and to appear in a perfectly natural manner.

The Navy League.

A group of women, representing many parts of the city and many organizations, met this afternoon at the home of Mrs. Carroll M. for the purpose of organizing a new section of the Navy League. There is much work before the women in the way of knitting and the making of comfort kits and clothing, and the women do not propose to wait around but to go at it at once.

Mrs. Miller, by the way, is most certainly being tried these days. No sooner had she arranged this meeting than she received a telegram from Dr. Baer of Baltimore, the specialist who has been treating her little son, Joshy, who suffered an attack of infantile paralysis. The physician stated that Mrs. Miller must bring the child to him at once for consultation as he (the doctor) is going to the front next week. Joshy is still in Pittsburgh with Mrs. Miller's relatives, where he was left and where he will remain until the seemingly never-ending scarlet fever epidemic in Aurora is over. Mrs. Miller will go on immediately after today's meeting to pick up the little boy and go on to Baltimore.

The Ace of Clubs.

The Ace of clubs, 21 in number, motored over to Oak Park yesterday where they were the guests of Mrs. Ned Fowler. Luncheon was served at 1 o'clock. During the afternoon the singing of Mrs. Willis of Oak Park, a friend of the hostess, was much enjoyed. The presence of Mrs. Louis Thexton (Elizabeth Higgins) was much enjoyed. At cards later the scores were made by Mrs. Charles Wright. Miss Nell Trivette, Mrs. H. D. Moorman and Mrs. Ulmer Klein. Mrs. Marion MacI Sheffield of Northampton, Mass., was a guest.

The Loyal Twelve was entertained yesterday by Mesdames James Rogers and Henry F. Relein at the home of the former. Luncheon was served, the centerpiece arranged by Miss Mayme Rogers, daughter of Mrs. Rogers.

era, being much admired, a huge bowl of sweet peas, surrounding a glass globe containing gold fish. Mrs. S. J. Ricker Sr. was not only able to attend the luncheon, but also remained to play cards, the scores being made by Mrs. John Wolf (Ida Cohen).

For Red Cross.

A card party was given last evening for the benefit of the Aurora chapter of the Red Cross by the Sons of Veterans auxiliary in G. A. R. Hall, netting more than 10 dollars. The scores were made by Mrs. Lottie Covalt, Mr. and Mrs. Foss and Mr. Hanson. Twenty tables were played, with three tables of finish, at which prizes were won by Mrs. John Applegate and Mrs. Mary Picot, Christian Culture Class.

The Country Club.

Judging from what has been overheard about town, those who are so enjoying the Aurora Country Club are planning to rally about its financial standard and to cheerfully make up the deficit, which, as everybody knows, was not in the least the fault of the directorate, but came about because of the fact that the directors yielded to an importunate demand to expend a greater amount of money than was really in hand. However, the experience of the Aurora club is really a duplication of other clubs about the country, which are not really perfectly lubricated until after several years of existence, and this special assessment upon members which was levied as the result of recent meeting, is the only one to be levied. It is believed that the dues will not be raised, at least for some time to come, as the plan outlined it is thought will care for outstanding indebtedness as well as summer running expenses. A change of course it will mean that no special improvements can be made this summer. The club is one of the most charming in this part of the country, well located, and in many ways has exceeded other clubs about the state many years' old. It has secured its necessary place in the life of the city, although it must be confessed that it would seem from conversations overheard, that it is realized that a club of the sort is more or less a luxury. It, however, furnishes the requisite amount of the healthful play which means much in the growth of a city.

Will George Burton Home.

Mr. and Mrs. Everett Beckwith, who purchased the W. H. Holmes residence in Garfield avenue, and are remodeling the same, will not be able to move in for several weeks. In the meantime they have been offered the use of her home, by Miss Claribel Burton, who will remain with the Beckwiths. Miss Burton's brother, Ralph, is staying in Chicago.

T. A. Club Meets.

The T. A. club met yesterday with Mrs. W. Dorr in Seminary avenue. The high score was made by Mrs. Dorr. Luncheon was served. The next meeting will be held with Mrs. Samuel Reid in North May street.

For Gay Griffith.

Twenty-five masculine friends of Guy Griffith of Howard Robinson and company, entertained at dinner for him last evening at the Manhattan cafe. Mr. Griffith's marriage to Miss Sarah Prusansky will take place in the near future. Mr. Griffith was

Twenty tables were played, with three tables of finish, at which prizes were won by Mrs. John Applegate and Mrs. Mary Picot, Christian Culture Class.

The May social and the annual election of officers of the Christian Culture class of the First M. E. church was held at the home of Mrs. Charles Brady in Fox street Tuesday evening. The following officers were elected: President, Mrs. J. B. Comer; vice president, Mrs. John Sears; secretary and treasurer, Miss Dora Wolfert; musical director, Miss Leslie Ward; musical director, Mrs. Bessie Hanks Miller; chairman of committees—membership, Mrs. P. L. Bartholomew; visitation, Mrs. D. H. Worthington; social, Mrs. Joseph Reid and Mrs. J. J. Encke; social service, Mrs. Ruth Chamberlain; press, Mrs. William Nelson.

Y Knot Club.

Miss Constance Stevens entertained the members of the Y Knot club last evening at her home in Spruce street. Five hundred was placed as usual with the honors going to Miss Madeline Heine and Miss Marie Treman. Refreshments were served after cards.

Shower for DeKalb Bride.

Mrs. M. Kennedy of DeKalb will entertain at a miscellaneous shower Saturday evening in honor of Miss Mildred Quinn whose marriage to Earl Kennedy takes place sometime in June. The groom-elect is the son of Mr. and Mrs. M. Kennedy.

First Wedding Anniversary.

A company of friends and neighbors surprised Mr. and Mrs. Joseph Weisbrook at their home in Front street last evening in honor of their first wedding anniversary. During the evening cards were played and honors were won by Reinhard Bercheld, Mrs. Frank Brown and Ralph Brown. Luncheon was served later and Mr. and Mrs. Weisbrook were given a handsome gift.

Red Cross Nurse Gives Talk.

Miss Burrett Sater of Chicago who has served eight months as a Red Cross nurse in France spoke this afternoon at a meeting of the Nurses' Alumnae association at the Aurora City hospital. There were a number of guests present including the women of the hospital board and several nurses.

To Open Playground.

A meeting of the civic committee of the Aurora Woman's club was held yesterday with the chairman, Mrs. J. A. Young, Mrs. C. W. Geyer was appointed chairman of the playground committee and subcommittees were also appointed. The civic committee will co-operate with the city in the playground which will be opened at Huron's island June 26. The supervisor will be appointed in a few days.

A telegram received by Mrs. J. R. Adams from the New York Y. M. C. A. states that the young fellows who went abroad, the group including her son, Donald, have safely crossed the channel and are now in London.

Mrs. John Dooling who has often substituted in bridge games of the Wednesday Bridge club, entertained the women yesterday at luncheon and cards.

First Wedding Anniversary.

Mr. and Mrs. Joseph J. Weisbrook were pleasantly surprised at their home, 218 Front street last night in honor of their first wedding anniversary. A company of about 60 of their friends and relatives were present. At cards first honors were won by Ralph Braun and Mrs. F. M. Braun; second honors went to R. Bercheld and Mrs. Harry Komar, and the congratulations by George Gelsner and Mrs. Weisbrook. The all cut was won by Mrs. George Gelsner. A luncheon was served.

KIRK-GLASSHAGEL

Miss Lydia Glasshagel, daughter of Mr. and Mrs. Fred Glasshagel of Hinsdale, and Carl F. Kirk were married last evening at 8 o'clock at the Emmanuel Lutheran church by the Rev. C. J. Fricke. The church was filled with relatives and friends of the bride and groom.

The bride was attired in a gown of white charmeuse with tulle and carried a handsome shower bouquet of lilies of the valley. The matron of honor, Mrs. E. L. Dunns, of LaGrange, a sister of the bride, was gowned in pink charmeuse with lace and carried pink sweet peas. Miss Esther Kruse of West Chicago and Miss Amelia Kirk, a sister of the groom, were the bridesmaids. Both wore pale green tulle with pink rosebuds, and carried pink roses. Little Elda Abel, a niece of the groom, was the flower girl and was charmingly dressed in pink, carrying a basket of daisies. Charles Pfriem was best man.

The church was beautifully decorated with palms while the house decorations were in sweet peas and roses.

A wedding dinner was served at the bride's home following the ceremony. Mr. and Mrs. Kirk will reside with the bride's parents after a short wedding trip. The groom is employed as a book-keeper for a cement firm in Chicago.

Sewing Club Meets.

The Base-Line Sewing club met at the home of Mrs. William D. James, Thursday, May 24.

The matter of taking up Red Cross work was discussed, but any definite action was postponed until the next meeting.

The following program was rendered: Reading, Mrs. Elmer Shepard; history of the club, by Mrs. Charles Martner; very interesting papers, by Mrs. Ward Montgomery; "Why Farm Women Should Be Club Women," and Mrs. William Perkins, "The Present Needs of America," reading, by Miss Biles.

Mrs. John T. Mason of Aurora was asked to talk to the club women in regard to federating, and gave an interesting talk on that subject. The club is to join both the District and State Federation of Women's clubs.

Actual Food Quality vs. Printed Quality

To read the advertisements one would think that the value of foods from a quality standpoint offered by different grocers was the same. This is an error. There is a great difference between printed and actual quality in foods. The kind that is only printed in does not go far, the kind that backs up the printed word does. It is legitimate for grocers to advertise quality but they must back it up. This house has never had any difficulty in doing so. When you buy here you know everything is "bona fide."

A Sellers Kitcheneed Will Do It!

Constructive Features of Sellers' Kitcheneed—

Nothing has been overlooked in making this a perfect article of kitchen equipment. Note below a few of the labor-saving devices.

Lowering Flour Bin—

Have you ever climbed on a chair and tried to lift a sack of flour up six feet to fill the flour bin of the ordinary kitchen cabinet? If so, you will appreciate this lowering flour bin—the unique device of the Sellers company. It is a perfect solution of the problem. See large cut.

Sliding Shelf—

Don't stoop—open the door of this compartment—and the shelf with all its contents moves forward automatically within your reach. No tired backs where a Sellers is used.

Roll Curtain Lifter—

Once more, don't stoop—just press a lever beneath the table shelf and the curtain of the lower compartment will roll up automatically.

TIME and strength were never worth so much as now—you can find a hundred better uses for them than in the endless walking between table, cupboard and pantry, when a Kitcheneed will put every utensil and material within your hands' reach. Every move counts when you do your work at a Kitcheneed, where all your materials not only have a place, but a place especially designed and scientifically constructed. See cuts at right and left for details.

Who Need Kitcheneeds?

DARCY DIES U. S. SOLDIER

Remains of Australian Champ
Will Be Held Temporarily
In Vault in This Country.

LOSES BOUT WITH DEATH

Memphis, Tenn., May 25.—The remains of the late Darcy, champion middleweight and light heavyweight champion of Australia, will be placed temporarily in a vault here but in the near future will be shipped back to his native land for burial.

Darcy became ill four weeks ago. He was in training here for a bout with Les Rowlands. Arrangements had been made for the match after the governors of New York, Ohio, Louisiana and Georgia had barred the Australian from fighting in their states on the ground that he ran away from Australia to escape enforced service in the army.

An infected tooth, allowed closely by an ailment of the tonsils, kept Darcy to bed. His right lung became affected and finally pneumonia settled in both lungs. His condition had been critical, but Monday he rallied and it was thought certain he would recover.

Fred Gilmore, Darcy's manager, called the dead man's mother in Australia this afternoon for instructions as to the disposition of the body.

Darcy left the country unknown to the authorities there, and came to America last December with the intention of boxing over the world's middleweight championship and incidentally increasing his fortune. Because of his method of acquiring his native health Darcy was branded as a "slacker" before reaching these shores on an old tank steamer and when he landed in New York, the given word of publicity was the victim of some criticism for that reason.

Darcy did not have a fight in America in all these months. He could have boxed in New York but hesitated too long while trying to pick out a manager from the horde that swarmed about him and a promoter to whom he could place reliance.

In the meantime Governor Whitman of New York had been called to the attention of the boxing commission and Harry Fox, the manager of Freddie Walsh.

When Darcy finally concluded he was ready to box either Al McCoy or Jack Dillon before any club the commission made was entitled to either match Governor Whitman barred him from New York state as a "slacker." This act came at a time when it was plainly evident that the United States might get into the European war.

Darcy on getting to America and finding that there was some sentiment against him because he left his own country without permission when it was up to him to enlist and go to Europe to fight Germany, announced that he would make five fights, if permitted, so he could send enough money home to keep his mother and family for life, then would enlist in Canada and go to the front. His sincerity in this was questioned because he ran away from Australia when Australia was at war.

After giving up the effort to get a fight in New York he tried Ohio and Louisiana and was barred in both states. Other states said they would not have him. He got into a misadventure with two rival promoters in Wisconsin and never had a chance to start there.

Finally in desperation he went to Memphis to box Les Rowlands. He would have been barred there had he not enlisted in the United States aviation reserve corps. Then it was decided to allow him to fight Rowlands. When his chance came he was taken down with illness and that fight had to be called off. It was his last chance.

Darcy was a great fighter. There is no question about that. He whipped everything they had in Australia and the best middleweights America sent over, including Eddie McGeary, Jimmy Clabber, George ("Klacker") Brown, George Chip and several other good ones.

Since his coming here they took away his titles from him in Australia, the middleweight and heavyweight championships. This was because of his "slacker" leave-taking. The patriots at home never forgave him and when they learned he was barred in the United States that put him in all the worst light. He, also, was a son of a gun and a coward, now he is hailed as middleweight king of Australia.

Darcy died a boy of 25 who made a mistake because he was not a commercial talk of boxing manager. It is too bad he did not have a chance to live down that mistake.

He won 111 bouts in 1905.

Darcy was born in Woodville, New South Wales, Oct. 23, 1891. His record follows:

PREP ATHLETES HERE TOMORROW

First Annual Meet of Northern
Illinois Conference Will Be
Held at Driving Park.

The first annual track and field meet of the Northern Illinois High School conference will be held tomorrow afternoon at the Driving Park. Sixty-five athletes from seven high schools will compete. The first event will be started at 1:30 o'clock.

Athletes from the following schools will be entered in the meet: East and West High of Aurora, Rockford, Elgin, Joliet, Freeport, DeKalb and Elgin. All but Rockford and Joliet will have men entered in every event.

High of Aurora rules favorite in the meet but will meet strong opposition in Elgin, West High and Freeport. The athletes of the latter school will be "dark horses" in the meet as they have not competed in this section this spring. Elgin will be strong in the sprints, Mayer and Brown both being fast men. Mayer is considered one of the best prep sprinters in the West.

In the half mile and the quarter mile races, East High's star, should win two firsts. He also may prove a stumbling block for some of the favorites in the shorter dashes. Cornish of East High is the favorite in the hurdles.

Following is the program of events:
Fifty-yard dash (preliminary and final).
One hundred and twenty-yard high hurdles (preliminary).
One hundred and twenty-yard high hurdles (final).
Two hundred and twenty-yard low hurdles (preliminary).
Two hundred and twenty-yard low hurdles (final).
Four hundred and forty-yard dash. Disqual.

Running broad jump.
Eight hundred and twenty-yard dash.
High jump.
Eight hundred and eighty-yard run.
Pole vault.
Half-mile relay (four contestants).

JOE KOSKA AND KELLY BOTH START TRAINING

Joe Koska and Spike Kelly, welterweights, who are to meet in the windup before Jack Rogers' club near Aurora Memorial day night, are both down to hard training in Chicago.

The Koska following has left \$200 at the Bloomer cigar store in Chicago to go as a side bet that Koska will win.

"Koska hit the lake front for a six-mile run this morning," Manager Jimmy Kilroy said over the long distance telephone. "Then he put in an hour at the Kenmore gymnasium in Wrightwood avenue. He worked the pulleys, jumped the rope and played hand ball. He finished up with four rounds of boxing, two with Kid Hogan and two with Terry Thomas. After the workout he stepped on the scales and tipped the beam at 146 1/2 pounds. He is feeling fine."

Koska will do all in his power to put over the old K. O. wrallo on Kelly. His friends on the north side have posted \$200 with Plack Collins at Al Bloom's cigar store, Madison and Clark streets, to go as a bet that he will be a winner over Kelly.

Koska will box Jack Britton at Des Moines, Iowa, June 2 if he defeats Kelly. Koska will show the fans of Aurora next Wednesday that he is the real card, not Kelly.

Koska is a resident of Pittsburgh but is now making his home in Chicago.

WILD HEAVE GIVES THE SOX VICTORY

Chicago, May 25.—A wild pitch brought relief to Albert ("Rebel") Russell yesterday and ended a 12-inning hurling tussle with George Du Mont on the other end. It was the latter who perpetrated the wild heave, giving the White Sox a victory by 1 to 0 over Griffith's Senators.

It was hardly a fitting finish for a game that for close to 13 full rounds had been jammed with crucial moments and spectacular plays.

The only run of the long, thrilling engagement was scored by Joe Jackson. The "General" opened the twelfth with a single to right, and Feuch moved him to second with a sacrifice. Gandil was up with two strikes when DuMont heaved a wide, low ball to the plate. It shot past Henry and rolled to the stand, and also the run arrived the latter hooked his way to safety and sent the huge scattering homeward to his supper.

Score by innings:
Chicago 0 0 0 0 0 0 0 0 0 1—1
Washington 0 0 0 0 0 0 0 0 0 0—0

GUNTHERS ARE HERE SUNDAY

Fast Chicago League Club Will
Play Aurora at Fox River
Park Grounds.

The Chicago Gunthers, for years one of the leading semi-pro teams in the central west and now today ranked as one of the fastest clubs in the Chicago league, will be the opponents of Aurora at Fox River park Sunday afternoon. It will be the first appearance of the Gunthers here this season.

Edward Miller, an Aurora boy who has been twirling professional ball for the past four seasons, will be on the rubber for the home club. He was signed last Monday after Babe Mitchell was released. Miller, now the property of the Indianapolis club of the American association, has never worked in Aurora before. His partner moved here after he started on his Paul in their 16-round bout last night.

CUBS TAKE CLOSE TILT FROM GIANTS

New York, May 25.—In a game of much wrangling, the Chicago Cubs got back into their winning stride yesterday, taking a hotly fought battle from the Giants 4 to 3 and again are on the heels of the leaders in the pennant race.

The scrapping was the principal feature. There was wrangling on the field, on the benches and even in the grand stand and bleachers. Manager Mitchell was banished from the scene in the sixth inning when he protested in language too strong because Umpire Byron had called Max Flack out at the plate.

In the ninth Byron called a strike on Honus Lobert, who was pinch-hitting for the pitcher. Kidluff was on first at the time and trying to steal second. Wilson's peg nailed him for the third out. A score of raving fans jumped into the field and all the New York players made a rush at the little umpire, who hustled away under the grand stand. The Cubs had at least a half dozen bad decisions against them earlier in the game or they would have been so far ahead of the Giants in the ninth that the decision on Lobert would not have been worth raving about.

In the eighth Darcy Robertson flew into a rage because he was called out on a third strike. This time Byron knew he was right and banished Robertson to the club house.

Score by innings:
Cubs 0 2 0 0 1 0 0 1—4
New York 0 0 1 0 2 0 0 0—3

'CROP REPORT IS ENCOURAGING

Much of Winter Wheat Killed,
but Large Acreage of
Corn Is Planted.

OATS CONDITION IS GOOD

The Burlington railroad crop report for the week ending May 19 says that much of the winter wheat crop in Illinois has been winter killed. In some places the ground has already been plowed up and planted with corn. Oats condition is described as good and a good acreage of corn has been planted. The report for Illinois and Iowa follows:

ILLINOIS DISTRICT.

Wheat.
Aurora division—Generally reported in poor condition—much of it having been winter killed. Percentage of condition averaging about 40.

LaCrosse division—Fair condition; no damage reported. Percentage of condition about 50.

Galena division—In only fair condition. Most places report it poor. Good deal of it winter killed. Some of the acreage having been plowed up and planted with corn. Percentage of condition 40 to 60.

Oats.

Aurora division—Condition good, coming up very well, but little backward. Percentage of condition 90 to 100.

LaCrosse division—Good condition, making some growth. Percentage of condition about 100.

Galena division—Good condition, in making good progress, but in week or 10 days late. Percentage of condition about 90 to 100.

Corn.

Planting has just gotten fairly started. Most of it not yet but good acreage is being planted.

Pastures and meadows are in only fair condition, generally top dry. Grass growing slow.

Weather during the week fair and favorable for farm work. Mostly good for vegetation. Temperature has been moderately high during the week, especially latter part of week, having been little above the average.

Little or no rain has fallen during the week, except some showers on the LaCrosse division latter part of week.

Soil is getting very dry on top. Farmers have generally been planting corn.

IOWA DISTRICT.

Wheat.
Burlington division—Fair. Ottumwa division—About 75 per cent stand.

Creston division—Acreage about 50 or 60 per cent on account winter killed. Balance of crop in good condition but needs rain.

Centerville division—In poor condition, will average about one-half crop.

Spring Wheat.

Burlington division—Good. Ottumwa division—Small acreage planted, in good condition.

Creston division—Condition good, but needs rain, about 100 per cent planted.

Centerville division—In fair condition. Very little planted.

Oats.

Burlington division—Good.

Ottumwa division—In good condition, 100 per cent crop estimated.

Creston division—In good condition.

Centerville division—Prospects for a good crop.

Corn.

Burlington division—Plowing for and planting.

Ottumwa division—Now being planted.

Creston division—Now being planted.

Centerville division—Now being planted.

Rye.

Iowa district—Very little planted on this district.

Barley.

Iowa district—None sown on this district.

Potatoes.

Burlington division—Doing nicely.

Ottumwa division—Large acreage planted. Too early to estimate yield.

Creston division—Acreage about double. Prospects good.

Centerville division—Coming up nicely. In good condition.

Sugar Beets.

Iowa district—None on this district.

Fruit.

Iowa district—Good prospects for all fruit except peaches.

Pastures and Meadows.

In good condition but a warm rain would do considerable good.

Weather.

Weather during the week favorable for all kinds of farm work. Temperature during the week has been moderate with cool nights and no rain fall. Soil in good condition for work. Farmers engaged in plowing and planting corn.

A Bad Back Made Good

(By L. W. BOWER, M. D.)

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, over-working the sick kidneys, hence the congestion of blood causes backache. If the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the eyes and lack of ambition to do things.

The latest and most effective means of removing this trouble, is to eat sparingly of meat, drink plenty of water between meals and take a single Anuric tablet before each meal for a while.

Simply ask your favorite druggist for Anuric (double strength) if you aren't feeling up to the standard. If you have lumbago, rheumatism, dropsy, begin immediately this treatment with Anuric. Most scientists and medical men believe that because of an over-abundance of uric acid in the system, uric acid salts are deposited in the tissues and cause rheumatism and gout.

The physicians and specialists at Dr. Pierce's Institution in Buffalo, N. Y., have thoroughly tested Anuric and have been with one accord successful in eradicating and throwing off from the system the uric acid which accumulates and poisons. Patients having once used Anuric at this institution have repeatedly sent back for more.

Such a demand has been created that Doctor Pierce decided to put Anuric in the drug stores of this country, in a ready-to-use form. It will be their own fault if those suffering from uric acid troubles do not take advantage of this wonderful remedy.

The United States Is At War!

Do You Realize It?

Since August 1914, the United States has with infinite patience and care considered every phase of the complicated political and war conditions of the world.

The President of the United States, having made up his mind that the time had arrived for the United States to declare its position, submitted to the Congress of the United States, a plan in perfect accord with our first "Declaration of Independence" and based thereon.

This plan, embodying as it did the loftiest hopes and ambitions of the greatest Republic of the World, received immediately the heartfelt sympathy and approval of every patriotic citizen, and as a result all doubt and uncertainty disappeared and the people are united as never before.

The citizens of the United States have become Citizens of the World and have raised above their own flag that of Humanity, and as this has been done with no selfish purpose in view and solely for the purpose of enabling all men to enjoy as we do ourselves political and religious freedom, it now becomes the duty of every citizen to make personal effort and sacrifice in order that Our Government may successfully accomplish and make practical the great ideal of our President to some day have a "World at Peace."

During these years of doubt and uncertainty each citizen has had his own view of what part the United States should take—as a result public sentiment was divided.

The bankers, merchants, manufacturers and all patriotic citizens of Aurora and surrounding community believe unreservedly in the principles the United States stands for and are going to do all in their power to aid the Government.

The time for talk has passed; the time for action is here. Each of us owes it to the land of our birth or adopted country to subscribe for the "Liberty Loan of 1917", and we take this method of urging every blessed soul in Aurora and the state of Illinois to immediately call or write one of the undersigned, subscribing for as many of these bonds as possible. They will bear 3 1-2% interest and are issued in denominations of \$50.00 and upward; therefore even those of moderate means should be able to subscribe.

These bonds, the only bearing 3 1-2% interest, carry with them the privilege of substituting them for bonds bearing a higher rate if later the Government should issue such bonds.

These bonds offer absolutely security, a fair rate of interest, the chance of a better rate later, and as they are exempt from all taxes except inheritance, the rate is much better than 3 1-2%.

U. S. LIBERTY LOAN

1917

3 1/2% Interest

Denominations
\$50 to \$1000 Each

**EVERY MAN, WOMAN AND CHILD
SHOULD OWN ONE OF THESE BONDS**

One of these Liberty Bonds is a Certificate of Patriotism. Buy one at once for yourself and each of your children, and help your Government.

Any member of the undersigned committee will receive orders for these bonds, and will do so without making any charge whatever. Call on your bank or bond broker and let us, thru you, demonstrate that Aurora is alive to the duty the Government has assumed and will do its part for God, Freedom and the Brotherhood of Man.

AUSTRIANS ADMIT ITALIAN SUCCESS

Vienna War Office Tells of Vic-
tory of Latins on Carso
Plateau This Week.

Claims Austrians Inflicted Severe
Losses Upon Assaults on
Other Fronts.

[By Associated Press Leased Wire.]

London, May 25.—An official state-
ment issued by the Austrian war of-
fice Thursday admits Italian suc-
cesses on the Carso plateau but
claims that the Austrians inflicted se-
vere repulses upon their assailants
elsewhere. The text of the state-
ment follows:
"Since noon yesterday the battle of
the Isonzo has been again raging
with extraordinary stubbornness.
Masses of the enemy directed a fur-
ious onset against our whole front for
40 kilometers from Plava to the sea.
At many points the battle was un-
interrupted during the night. In the
region of Monte Cuoco, near Vodice
and Montebello a storming attack
was made in the afternoon. All the
detachments which advanced east of

Montebello became victims of our de-
structive fire.

Reinforcements have been
sent to the front.

"Near Vodice the enemy's attacks
were broken by the bravery of our
infantry. Near the convent of Mon-
tebello the enemy succeeded in cross-
ing our trenches, which were ruined
by his drumfire. He was, however,
met by prompt reinforcements and
driven back on his reserves and with
them down Uvren ridge by our ar-
tillery. At the same time two mighty
assaults east of Gorizia failed, partly
under our artillery fire and partly
after a hand to hand fighting.

"There was fierce and obstinate
fighting for the much contested bat-
tlefield on the Carso plateau. Our
positions here and the terrain behind
them were under the enemy's drum-
fire of guns of all calibres at dawn.
Toward noon the first enemy infantry
attacks started at Castagnizza and
were repulsed. A powerful Italian at-
tack against the entire front on the
Carso plateau began in the afternoon.

"Between Fajti and the sea the
enemy sent succeeding waves against
our lines. Whenever one wave col-
lapsed another followed. Thus the
struggle continues undiminished in

violence. The enemy has only gained
ground protecting Jamiano where we
had withdrawn our troops one kilo-
meter. Otherwise we maintained our
positions victoriously to the full ex-
tent everywhere."

For Graduation—The Perfect Gift

A
Watch

The
Utility
Gift

Tested
Through
Years

GRADUATION is the first of those
really great occasions in any boy's
life. And it is the one which, more
often than any other, is celebrated by
the gift of a watch.

THE reason is not hard to find—a Watch is
the perfect utility gift. Twenty times a
day, every day in the year, and every year of
his life, the boy will consult that Graduation
Watch—the watch which now adds the su-
preme joy to graduation day—and to which
memories will add a lasting significance and
sentiment.

WE carry all of the best makes of watches
—notably the Waltham, the Elgin and
the Hamilton. We can strongly recommend
to you these watches which we have handled
with unvarying satisfaction through many
years.

ASK BANKERS AID IN PRODUCING PORK

Hogs Afford Quickest Possible
Method of Increasing Food
Supplies of the Nation.

Pig Clubs Being Formed, Banks Giving
Promissory Note Loans
and by "Endless Chain."

Washington, D. C., May 24.—Since hogs afford the quickest means of increasing our meat supply, continued and extended efforts of public-spirited bankers in furthering the organization of pig clubs by advancing to club members the money needed for the purchase of pure bred sow pigs is doubly desirable at this time, according to the United States department of agriculture.

Pig clubs have increased very rapidly during the past seven years. In 1910 there were 59 members in the United States; today the number exceeds 20,000, found principally in Arkansas, Alabama, California, North Carolina, Louisiana, Georgia, Texas, Oregon, Oklahoma, Nebraska, Kentucky, Indiana, and Massachusetts. These states contained 21,673 members last year, but pig clubs are being formed rapidly in other states. The demand for gilts and bred gilts by club members is unprecedented, even at the high prices at which they are held. Financial assistance to the pig club members has been the means of introducing pure bred hogs in places where otherwise this might have been impossible, and has helped to build up the agriculture of the communities which the banks serve. These clubs stand not alone for great or pork production. By increasing the amount of live stock they encourage the production of much of the food on the farm, and as their activities are coincident with or follow club work in the growing of corn and forage crops, they are part of a system that favors a sound diversity in agriculture and a rotation of crops that will maintain the fertility of the soil.

Promissory Note Plan.—Two plans have been followed by bankers in providing the sow pigs necessary to enable the boys and girls to engage in pig club work. One method is the so-called promissory note. The banker makes individual contracts with the pig club members. In each case he agrees to lend them a certain sum of money at 6 per cent interest for one year, or longer if necessary. The member agrees to keep up a membership in the pig club, to invest the loan under the direction of the county agent or county club representative, and to repay it at maturity out of the proceeds of the sale of the original stock or the increase. As security for the loan, the banker takes the member's promissory note. The member's pig club membership is not a condition of the contract, in writing, and agrees not to claim any right in the pigs purchased or their proceeds.

The other method is called the "endless chain" plan. This also involves individual contracts. The banker agrees to furnish a registered sow pig. The boy or girl agrees to join a local pig club, obey its rules, care for the sow according to instructions, breed her at not less than eight months of age to a registered boar of the same breed, raise the litter according to the rules of the club, and deliver to the banker a choice gilt (not less than eight weeks old), from the first litter. The member agrees also to take out registration papers for all the first-litter pigs not sold for immediate slaughter. When these agreements are met, the original sow and the remaining pigs become the member's property. If the member is unable to return two sow pigs out of the first litter the agreement continues until this is possible. If the original sow dies before farrowing a healthy litter the banker does not fulfill all agreements, rights to the sow and her progeny are forfeited. The parent agrees to the contract, in writing, and acknowledges that the sow and her progeny shall belong to the boy or girl.

The Endless Chain.—When the banker receives the two sow pigs from the member and puts them out to other boys or girls under the same agreement, the endless chain feature of the activities in pig club work is maintained. This plan may be varied in details to suit conditions. For instance, the banker may require the return of only one sow pig, and stipulate that the boy or girl must join a corn or peanut club, raise at least half an acre of green feed, and exhibit the sow and her offspring at the county fair or live-stock show.

Under similar arrangements, boys have received calves to raise, and both boys and girls have received eggs of purebred chickens for hatching.

It is urged that bankers in the south who have taken part in these projects heretofore continue their aid, and others, both in the north and in the south, take up the work, as it is a patriotic duty at this time to increase the nation's supply of food. County agents, state agricultural colleges, and the department of agriculture will answer gladly any questions regarding details of these activities.

URGE RAILROAD WORKERS TO BUY LIBERTY BONDS

[By Associated Press Leased Wire.]
New York, May 24.—Alfred H. Smith, president of the New York Central railroad and chairman of the railroad liberty loan committee, has sent an appeal to the presidents of all railroads in the country. It was learned today, urging them to cooperate with their employees in aiding them to buy liberty loan bonds. Each letter contained a form of announcement to the employees with suggestions as to how best they can subscribe. It is understood that the railroad scheme involves handling of the purchases thru the companies.

JAPANESE CRAFT READY TO GIVE ALLIES AID

[By Associated Press Leased Wire.]
London, May 24, 2:50 p. m.—The arrival of "a considerable number of light Japanese naval craft in the Mediterranean to co-operate with the naval forces of the allies" was announced in the house of commons today by Lord Robert Cecil, minister of blockade.

A Paris dispatch last Friday said a number of Japanese gunboats had arrived at Marseilles to assist in the operations against German submarines and to convey French merchantmen. If the experiment has satisfactory results, it is to be extended.

People who are too anxious to live on velvet soon get called on the carpet by Lord Robert Cecil, minister of blockade.

PARIS CROWDS CHEER JOFFRE

Oration Welcomes French Mission Home After American Visit for War Agreement.

RIBOT CONGRATULATES PARTY

(By Associated Press Leased Wire.) Paris, May 23.—Enormous crowds, cheering tumultuously, welcomed the French mission to the United States on its arrival here from America. Premier Ribot, Minister of the Interior Malvy and other members of the cabinet were at the station to welcome the envoys.

"Why, this is like New York," said Marshal Joffre as the automobiles which conveyed the members of the mission from the station were halted on account of the density of the cheering crowd. The police lines were broken thru by the throngs of spectators, who surrounded the automobiles, waving flags and handkerchiefs.

Premier Ribot congratulated the members of the mission upon the results of their trip to America as did the other cabinet members. After the official reception was over M. Viviani, discussing his departure from Washington, said: "I told President Wilson how deeply touched I was by the manifestations of the sympathy of the American people. The president replied simply: 'We

are brothers in the same cause.' The ship that brought the mission dropped anchor at about nine days after its distinguished passengers had said farewell to President Wilson.

The members of the mission left Washington in the evening, going to the railway station singly, so as not to attract attention. They travelled to the port of embarkation on a special train and boarded an armed ship at midnight. The vessel sailed immediately.

In spite of their crowded days in America, filled with traveling, speech-making, banquets and other festivities, all the French commissioners showed little sign of fatigue when they started on their voyage. The first morning out Minister of Justice Viviani exercised himself by climbing the rigging, swinging from deck to deck like a candidate for the "honors" of the "Parisian" who exercises in answering 360 of government heads in connection with governmental business.

It is sent without charge to all government officials and public institutions free, but to the general public and to private institutions a charge of \$1 a year will be made, and the provisions under which the bulletin is published make it impossible to distribute free copies.

Satisfied With Trip.

All the members of the mission have returned to France satisfied with the results of their trip. They were delighted with the courtesy of the president, the warmth of the public reception and the good will toward France shown wherever they went. They brought away with them the conviction that America would play a part in the war commensurate with her greatness. President Wilson, in saying good-bye,

gave M. Viviani a cordial letter to President Poincaré of considerable length, covering three pages written in the president's rather close hand. Marshal Joffre has brought with him certain memoranda of things agreed upon, including the early cooperation of the United States on the western front, which has been announced in part in America since the commission left.

NO FREE COPIES OF U. S. BULLETIN

(By Associated Press Leased Wire.) Washington, May 24.—Many misunderstandings have arisen with regard to the official bulletin, being issued by the committee on public information under order of the president.

The sole purpose of the bulletin is to assure the full and legal printing of the official announcements of government heads in connection with governmental business. It is sent without charge to all government officials and public institutions free, but to the general public and to private institutions a charge of \$1 a year will be made, and the provisions under which the bulletin is published make it impossible to distribute free copies.

SHAKE OFF WINTER'S BUGBEAR-PRERARE FOR SUMMER'S GOOD HEALTH

Snow, Sleet, Cold Wind and Rains Undermine the Body So Now Is the Time to Revitalize Your System and Enjoy Yourself During Coming Months.

The siege of winter, that leaves in its wake so many people with completely run down systems, is one of the great agents of destruction man has to combat.

Snow, sleet, cold rain and wind that chill a person through and through are so thorough in their work against humanity that a few escape.

In fact, in recent years, it has become common for people who desire to rid themselves of the effects of winter weather and to guard against a disagreeable state of health in the summer months to take, at springtime, some kind of tonic known to be a system purifier and of reconstructive qualities.

Thousands have begun to use Tanlac, the celebrated new reconstructive tonic and system purifier and praise it as the best spring preparation they have ever tried.

Speaks of Catarrh.

Catarrh is the great American disease. It is a serious, how many men and women are suffering from catarrh alone, while believing that another ailment is causing their distress. Catarrh of the stomach and kidneys in many, many cases leads to dyspepsia and more serious consequences.

Symptoms of catarrh are many but easily learned. They are: Bad breath, coated tongue, dizziness, watery eyes, frequent sneezing, lodging of mucus in the throat, stopped up nasal passages, roaring in the ears, sleeplessness and a nervous, irritable condition.

As catarrh progresses there are pains in the back, stomach and kidney regions. Then comes a feeling of being "run-down", inactive and non-assimilation of food that leads to the really serious stages.

Men and women who suffer from loss of appetite, sour and gassy stomach, bloating, dizziness, headaches, dull pains in the limbs, or grow melancholy over slight disappointments, have irregular circulation or ailments of the kidney or liver and will find Tanlac contains just the remedial qualities to meet their condition.

Tanlac builds up the broken down tissues. It brings about the proper assimilation of food, vim, vigor and vitality are restored. In fact, it drives away the body impurities accumulated during the winter's siege.

VALUE SOARS HIGH AFTER FIRST TANLAC TRIAL ENDS

Urbana, Ill., May 25.—"When my friend told me what I think of Tanlac I don't hesitate long but tell them that it has been worth a dollar an ounce to me," E. A. Stipe, 219 South Cottage street, Urbana, said on April 22.

Stipe was troubled with his stomach and liver and kidneys. He had to be careful what he ate. Bloating always followed meals. But now he says, "My kidneys and liver are in better condition. My entire system has been benefited and my stomach is greatly improved."

LOOKS YOUNGER FRIENDS THINK

Mrs. Henry Phillips Describes Tanlac Relief And She Says It's Unrivaled.

BENEFITS ASTONISHED HER

Streator, Ill., May 25.—"Why, Mrs. Phillips, what are you doing that you look so much younger?" That's what neighbors and friends have been asking me since I started taking Tanlac," Mrs. Henry Phillips, of 615 Tyler street, this city, said on April 20.

"My relief really astonished me," she added.

"For a long time I had stomach and kidney trouble and my nerves, too, have been in bad condition," Mrs. Phillips continued. "I was so nervous and fidgety at times that I could hardly stay in the house. I never felt like doing my work because my feet and limbs pained me constantly."

"Mr. Phillips had read in the newspapers about Tanlac and mentioned to me that so many people in this city and vicinity were receiving benefit and praising the new medicine that I finally decided to try it."

"Well, sir, now I feel better in every respect. I can do the housework without much difficulty as the pains in my feet and limbs have disappeared. My stomach and kidneys never bother me any more. At night I sleep soundly and my nerves have been greatly benefited. I'm only too glad to let my friends know what Tanlac has done for me."

OTTAWA WOMAN POINTS OUT RELIEF SHE HAS RECEIVED

Ottawa, Ill., May 25.—"I simply can't tell you how much good Tanlac has done me," Mrs. Laura Kennedy, well known Ottawa woman of 819 Walnut street, said on May 1. "My nerves would almost drive me crazy. I was tired and worn out most of the time. My stomach was sick and sour and I never cared much to eat."

"But for all this, four bottles of Tanlac has made me a different person. Now I eat anything I care for. I'm gaining in weight and strength, too. I'm not a bit nervous any more and sleep like a child at night. It's the best medicine I've ever taken."

HER SISTER PERSUADES MRS. BOYSSO TO TAKE NEW TANLAC

Utica, Ill., May 25.—"My wife's sister had been benefited by Tanlac and she persuaded her to try it, too, and I can say that Tanlac has wrought a remarkable change in my wife's condition," George Boyssso said on April 23, speaking of his wife's relief. They live on rural route, No. 28, Utica.

"Since taking Tanlac her weight has increased and she's gaining in strength. Before trying this new medicine she couldn't do her housework and her stomach was out of order. Now she has hearty appetite and the foods digest properly. I can't praise Tanlac too highly."

EVERYONE IN KANKAKEE KNOWS WILLIAM PATCHETT

Kankakee, Ill., May 25.—"Practically everyone in Kankakee knows William Patchett, retired real estate dealer, who lives at 688 South Huyler street. Recently he was troubled with his health and immediately turned to Tanlac for relief. Of his relief he says:

"I certainly hit it right when I decided to try Tanlac. Now my stomach is in better condition than for the last 10 years. My food digests properly and gas formations and bloating have ceased. Tanlac has done me wonderful good."

AGENTS WANTED.

An exclusive Tanlac agency is to be established in every city town and village in Illinois within the next 90 days. Drugists desiring the agency are requested to write or wire The Bailey-Gaines Drug Co. (Inc.), 414 E. Lake Rd., Indianapolis, Ind.

WOMEN OF BATAVIA IN RED CROSS DRIVE

Organize Every Ward in the
City for House-to-house Can-
vass for Members.

Has at Least 2,000 Active Workers in
the City to Get Comforts
for Soldiers.

Batavia, Ill., May 25.—The women
of Batavia started a house to house
canvass this morning for members
of the Red Cross society. Mrs. E. E.
Sperry has been appointed by Mrs.
R. H. Sperry to take charge of
this portion of the work in securing
members so that the organization can
have sufficient money to make arti-
cles for the outfit being prepared
to equip soldiers and sailors with
comforts.

The women are divided into four
sections taking the city aldermanic
wards for the division. In the first
ward Mrs. Arthur Rogers is chair-
man, assisted by Mrs. M. M. Kline,
Mrs. L. Crane, Mrs. W. Hawke, Mrs.
A. Boynton, Mrs. A. Parre, Mrs. D.
Batholomew. Second ward—Mrs.
George Burnett, chairman; Mrs. E.
C. Brown, Mrs. John Van Nortwick,
Mrs. N. O. Freeman, Mrs. Charles
Johnson and Mrs. L. Johnson. Third
ward—Mrs. Carl Moore, chairman;
Mrs. J. V. Burton, Mrs. L. E. Wolcott,
Mrs. Florence Moore, Mrs. J. L. For-
kner, Mrs. Berth Johnson and Mrs.
Charles Hubbard. Fourth ward—
Miss Janet Jewel, chairman; Mrs. W.
A. Thomas, Mrs. Charles Stephens,
Mrs. M. J. Abernathy, Mrs. William
Hollister, Mrs. J. Barkley, Mrs. J.
Toung and Mrs. M. Coulter.

In this drive to get members all
are asked to do their bit and make
the membership at least 2,000.

Otto Konrad's Death a Shock.
The many friends of Otto Konrad
were shocked to learn of his sudden
death which occurred at his home in
Aurora last evening. Mr. Konrad
was for years employed as foreman
in the Gales cigar factory here, re-
siding at that position on account of
his health and entering the hardware
business in East Wilson street. Two
years ago he was appointed deputy
internal revenue collector by United
States district attorney Charles Cuyler
and moved to Aurora. Mr. Konrad
at one time was alderman in the
Fourth ward here.

Alfred Abrahamson Dies.
Alfred Abrahamson died at his
home, 148 Union avenue, last evening
after an illness of several weeks.
Mr. Abrahamson was born August 15,
1871, in Sweden and came to this city
about 25 years ago. He leaves a wife
and four children, Arvid, Edith, Harry
and Erick, one sister, Mrs. Dina
Peterson, of Chicago, two sisters a
brother and mother in Sweden. He
was a member of the Thor society
of Chicago. He has been active in
the Swedish Mission church and the
Rev. Mr. Strom of that church will
officiate at the funeral, which will
be held Sunday at 2:30 o'clock from
the late home. The burial will take
place in West Batavia cemetery.

Funeral of Mrs. Nelson.

The funeral services for Mrs. Char-
lotte Nelson will be held from her
late home, in East Wilson street, Sat-
urday afternoon at 2:30 o'clock. The
interment will take place in East
Batavia cemetery.

Grade Concert Tonight.

Tonight the concert of 250 children
of Batavia grade schools will give
entertainment. The program will
begin promptly at 8 o'clock and a
cordial invitation is extended to the
public. A large stage has been
erected and much time has been given
to drilling the children by Prof.
Schneider, the director.

Social and Personal.

Paul E. Winchell and Miss Mary
Burk, who are in charge of the draw-
ing department of the Batavia
schools, have again received recogni-
tion. At the recent exhibit at the
University of Illinois the drawings
of this school received honorable
mention and several pictures re-
ceived first prize.

All members of Rock City lodge
planning to go to St. Charles this
evening are requested to meet at the
west side transfer station at 7 o'clock
and take Elgin car. Every member
is urged to attend.

The members of Batavia chapter
O. E. S. are invited to St. Charles
May 25 to take part in a meeting of
that chapter. The local lodge will do
the work. All members take the 7
o'clock car.

The Order of Vasa local lodge plans
an outing Decoration day at the Al-
bert Nelson home, three miles east
of this city. Auto trucks will leave
First street and Batavia avenue at 2
o'clock and 3 o'clock. Everyone is
welcome.

The Sons of Veterans auxiliary
will meet Sunday morning at 10
o'clock to attend services Sunday
morning at the First M. E. church.

Mr. and Mrs. Henry Witt and little
daughter of Boone, Iowa, are visiting
at the home of Mr. and Mrs. John
Smith.

Fifty women are wanted to come
to the Woodman hall Saturday eve-
ning, May 26, at 7 o'clock, to make

wreaths for Decoration day for all
orders.

Mrs. Albert Nelson and Miss Millie
Anderson were at Elgin yesterday.
There will be no meeting of the
Nordens Daughters this evening. It
has been postponed until further no-
tice.

The union meeting of the churches
will be held Sunday night at 7:30
o'clock at the Congregational church.
The Rev. E. H. Leach will preach the
sermon. The union prayer meeting
will be held in the same church at
8:30 o'clock.

Halvor Leek, son of the Rev. and
Mrs. J. D. Leek, has written his
parents that he has been chosen
editor of the Decaturian, the paper
published each year at the Millikin
university.

The baccalaureate services will be
held at 8 o'clock Sunday afternoon
at the high school auditorium and
the Rev. Philip Thelander, pastor of
the Swedish Lutheran church, will
officiate.

At the regular convention of Ro-
mane Lodge, Knights of Pythias, to-
night, there will be work in the
third rank for three candidates. Mem-
bers of Aurora lodge will be guests
of the local members and witness the
work. After the work is completed,
a buffet luncheon and smoker will
be enjoyed. In order to get an en-
joyable regular business meet-
ing of the lodge will be called at
7:30 o'clock sharp. All members of
the order should make an effort to
be present. Members of the team
are requested to appear not later than
8 o'clock. Visiting Knights wel-
come.

Mr. and Mrs. Forest Clausen called
at Robert Schlapp's, Sunday after-
noon.

Hayes, Henry and Mrs. Mary
Wheeler Sr. called on Mrs. Frank
Johnson at the Aurora City hospital
Saturday.

Glenn and Russell Armbruster
spent several days last week with
their grandmother, Mrs. Chris Arm-
bruster, in Aurora.

The Young People's Sunday School
class of the Oswego Presbyterian
church surprised Mr. and Mrs. Ken-
neth Campbell at their home Friday
evening. They were given one-half
dozen small gifts. The evening was
spent playing games and light re-
freshments were served.

SUGAR GROVE

The women of Sugar Grove will do
their bit in the Red Cross work as
an auxiliary to the Aurora chapter
of the American Red Cross. A meet-
ing was held Friday afternoon at the
church and \$20.00 was raised to buy
material. A work shop will be open-
ed in the church or one of the homes
where the women will meet every
two weeks to sew. Wednesday, May
23, the meeting will be held at the
church. Picnic luncheon will be served
at noon. Mrs. Ada Stone, Mrs. Maud
Snow and Miss Helen Bevey are the
committee in charge. Seventeen wo-
men from Sugar Grove have joined

SERGEANT TIMMINS WILL QUIT GENEVA

Riverbank Villa and Trinity
School Drillmaster Retires
for Other Work.

Has Done Much Good Work in War
Instruction—Private Alliance
of Canada Successor.

Geneva, Ill., May 25.—Sergeant
Michael Timmins of the United States
regular army, who saw much service
during war and times of peace, and
was in Spanish war at Santiago,
has retired as the military instructor
of the men employed by Col. George
Fabyan at Riverbank Villa. He has
been instructor of the cadets in the
schools of Geneva, St. Charles and
Batavia, taking military training. He
is also leaving the service.

He was a member of the Canadian
army, a member of a Canadian regiment,
who is absent from northern France on
wounded leave, is doing the drilling
of the high school cadets until Col-
onel Fabyan can get a successor to
Sergeant Timmins.

Sergeant Timmins did excellent
work here as a typical soldier,
the result of years of training and
thru much actual service. The school
cadets of the tri-cities regret his de-
parture.

To Talk East Side Sewers.
The Geneva board of local improve-
ments will meet Monday evening,
May 25, to consider matters pertain-
ing to the east side sewer system now
being constructed.

New Books in Library.
The following new books have been
added to the Geneva public library:
"Green Mansions" by W. H. Hud-
son. "A sort of prose lyric, lovely as
the legend of 'Undine'."—New York
Times.

For the children:
"Isabel Carleton's Year," by M. E.
Ashman.
"Tied Piper of Hamelin" by Robert
Browning, beautifully illustrated
by Hope Dunlap for children.

WOMAN SCHOOL HEAD ISSUES STATEMENT

Miss Faith McAuley of St.
Charles Says She Was Not a
Candidate for Re-election.

Interested in Public Service but Not
Wish Involving Strife—Board
Got Word April 18.

St. Charles, Ill., May 25.—Supt.
Faith McAuley of the St. Charles
schools today issued the following
signed statement:

"Since a recent communication rela-
tive to my candidacy addressed to me
by the St. Charles school board was
given publicity, my answer to the
communication is also made public.

"On April 16, more than five weeks
ago and before the time first set for
the school election, the following
statement was presented to the school
board at its regular session of above
date:

"St. Charles, Ill., April 18, 1917.
"To the members of the board of edu-
cation:
"While interested in public service,
I am not interested in public service
which involves strife. I therefore
wish clearly to indicate that I do not
wish to be considered a candidate
for re-election.

"Very truly yours,
"M. F. McAULEY."

The above statement which still in-
dicates my position was not accepted
by the board members as final. Thus
the superintendency was permitted to
become an issue and to obscure other
issues.

"In justice to myself and the com-
munity it seems only fair to say that
the campaign statements made were
misrepresentations, and are refuted
by easily procurable facts. The
charge of being a woman was unan-
swerable. The fact is acknowledged,
and without apology. Attention is
called to the fact that, previous to
1911 all teachers employed in the
schools were women. Each year since
then men have been employed, the
number having been increased two
years ago to three.

"M. F. McAULEY."

New Paving Unusual.
The first concrete with a granite
surface pavement in Kane county has
been laid on one of the main blocks
of Illinois avenue, east St. Charles.
The granite, which is ground into

small pieces, is mixed with the con-
crete and is used for surfacing.

No New Pastor Yet.
District Supt. Frank Sheets of
the M. E. church said today that no
clergyman has yet been considered
for the pastorate of the St. Charles
church. The church pastor who is
serving the church can be kept in the
church until the next Rock River con-
ference. Should he wish to get the
pastorate, he will have to transfer
from the Chicago district to the Rock
River district. Doctor Sheets said. The
vacancy has resulted from the trans-
ferring of the Rev. C. F. Klehauer
to Naperville.

Commencement in Evening.
The commencement exercises of St.
Charles high school will be held in
the evening this year. Heretofore
the exercises have been held after-
noon. The program will be in the
high school.

Miss Bertha Hegstrom who has
been seriously ill for many weeks
with typhoid fever is now much im-
proved.

St. Charles camp, No. 1001, Modern
Woodmen, will conduct its annual
Memorial service in the North cem-
tery Sunday, June 3, at 2:30 o'clock.
The loyal neighbors are invited to
participate in these services.

The W. C. T. U. meeting will be
held at the home of Mrs. W. J. Cal-
houn Friday afternoon, June 1, at 2:30

NEW YORK CAR RIDE MAY COST SIX CENTS

Gothamites Worried Over Prospect of Extra Penny—Attack on Convention Nickel.

See May Be Exception to High Cost of Living—Learning to Obey Sundry—Servant Problem.

New York, N. Y., May 11.—The convenient and economical nickel is not likely much longer to insure a ride in, under or over, the streets of the metropolis, according to rumors emanating from Wall street this week. These reports have it that the surface, subway and elevated lines of the greater city have applied to the public service commission for permission to raise their fares to six cents.

The arguments put forward by the street railway men are the same as those advanced by the executives of the interstate railroads in their appeal for permission to increase freight rates. War prices for coal, oil, rails and other supplies are quoted together with the increase in wages. Wages on most of the lines have jumped from 20 to 40 per cent since 1916 and the cost of many essential materials has risen over 100 per cent. In its report for 1916 the public service commission stated that since that year the net incomes of the electric railways of the state had fallen off 55.2 per cent.

There are two classes of objectors to the six-cent fare. To those in such circumstances that every cent means much, two additional cents a day is a real hardship. There is a large, easy-going and moderately comfortable class, however, to whom the extra cent means nothing, either in making change or in the form of a convenient dime than to stop and fish out two unequal coins or fuses with the counting of odd change. It was always difficult to interest this class in cities where a three-cent fare has been proper from time to time. Now they join with the parsimonious and economical in a wall of protest against that extra cent.

See May Be Cheaper. Despite the discouraging and unreasonable chill of the first two weeks of May in this region, nevertheless in the spring both young and old men's fancies, yea and women's, turn not lightly to thoughts of ice. Now is the time when New York ice dealers usually begin to explain that ice has been a short crop, either because the winter was too warm, or because ice froze so thick they couldn't cut it.

This season they are laying a possible high price to the cost of coal, declaring that 50 per cent of their product is imported. They say, however, that the price of coal is not so high as it was last year. At least, they say, the price of coal is not so high as it was last year. At least, they say, the price of coal is not so high as it was last year.

Learn to Obey Sundry. The independent man in the street who flourishes in such numbers in Gotham and whose motto, "This is a free country," has been the battle cry in many a fight with the police, is slowly and painfully learning the lesson of absolute and unquestioned obedience to the military sentry that have become such a conspicuous feature of our streets and bridges since war was declared.

There were many sharp, snort arguments at first at most a jab with a bayonet ended the argument. Some particularly obstinate ones didn't believe a sentryman in a "free country" would really shoot. So an elderly crank in Harlem pushed the experiment to the limit and was promptly shot and killed. The coroner's jury blamed the soldier, but the coroner reminded them they had no jurisdiction over a military case and expressed the hope that this would be a lesson to others.

It was not a sufficient lesson, however, and a few days later a Brooklyn man not only refused to move on when a sentryman ordered him to do so, but threatened to draw a knife.

"SILVER THREADS" AND GRAY IN HAIR?

Let Q-Ban, a Simple Safe, Sure Preparation, Bring Natural Color and Hair Health. Not a Dye.

Here is the one safe, healthy, full and certain way to regain the natural color to gray or faded, lifeless hair—the one method in perfect good taste and accepted by America's foremost people.

Q-Ban Hair Color Restorer will bring all your hair back to its original, even shade, and it will be rich, glossy, lustrous and soft. For women, Q-Ban means hair of real beauty. For men and women, Q-Ban means the look of vitality, health and youth.

Redmond Rejects Home Rule Plan

JOHN REDMOND.

John Redmond, leader of the Irish nationalists in the house of commons, who, according to dispatches from London, has rejected the Lloyd George proposal for home rule for Ireland but accepted the proposal for an immediate calling of a convention to decide on a government for Ireland. It is expected that all Irish parties will agree to the convention.

He was thereupon promptly fired at not only by the sentryman but by several other soldiers who were near. No one knew whose bullet killed him but all were exonerated by their officers.

Now street bullies and cranks are more respectful.

Servants by the Hour.

With the increased employment of women in the factories, owing to the call for men in the army, the hack-rider of old domestic servant question has become more acute than ever. One woman who has a large house in a suburb of New York found it so difficult to keep a staff of servants that she was about to close her house in despair. Then she thought of a new scheme. She advertised for women who wished to do housework by the hour, no lodging or meals furnished. She received a perfect flood of replies from the wives of laborers and mechanics in the poor quarter of the town who could spare from one to three hours a day from their own duties. She sifted out the likely ones from these applicants and engaged them into shifts. It worked perfectly. She gets her work done satisfactorily for less money than before and has

DR. COFFEE WILL VISIT AURORA Tuesday, May 29

HE WILL TREAT NEW PATIENTS ONE TIME FREE.

Dr. W. O. Coffee.

Dr. W. O. Coffee, the noted oculist and aurist of Des Moines, Iowa, will make his next visit to Aurora at the Bishop Hotel, Tuesday, May 29. He will see patients from 9 a. m. to 6 p. m. Remember this date and send word to people you know suffering with eye, ear, nose and throat troubles.

Dr. Coffee invites every person suffering with any kind of disease or weakness of the eye, hearing, sight or blindness to see him and let him treat them one time free to show his new Absorption-Massage Treatment won't cure their eyes. He has restored sight to many blind people and cured scum, growths, granulated lids, sore eyes, without making eyes sore, and they could throw away their glasses. He particularly invites every person afflicted with deafness, loss of hearing or head noises. No matter how long they have been deaf or how deaf they are, they may be curable if the disease has not too badly injured the ear drum and middle ear. He has restored hearing to people who have been deaf for 25 years. He especially wants every person who is deaf in one ear and is gradually losing the hearing in the other; he says most of these cases are curable. The disease is in the Eustachian Tube causing partial closure or collapse of the ear drum. Many of these cases get immediate relief from one treatment. He wants every case of catarrh to come and try his treatment once free. It gives immediate relief. He says every case of catarrh should be curable with his treatment. His treatment is something new and different from anything that has ever been used by any doctor. It is a combination of local absorbing remedies and certain forms of massage and treatment of the blood and system. The patient uses this at home. The cost is very small. He straightens cross-eyes in three minutes. The patient can sit and talk to him while he is doing it. He has frightened many cases around this. He removes adenoid growths in two minutes without chloroform. The patient goes home all right. He has restored hearing to many cases here. He accepts no case that he thinks is incurable. He has treated eye, ear, nose and throat diseases for over 32 years and has treated thousands of cases. He invites every person suffering with these troubles to come and get his opinion. If he thinks he can help them he will give them a thorough treatment free and tell them how long it will take for them to get well. You will be under no obligation to pay him any money or take further treatment unless you wish. Remember the date. For further information, address, Dr. W. O. Coffee, Des Moines, Iowa.

SUGAR GROVE

Sugar Grove, Ill., May 24.—The following is the program of the closing week of the Sugar Grove normal and industrial school: Baccalaureate address May 20 at 8 o'clock. Final examinations May 22-23. Special exercises Friday evening, May 25. Alumni picnic Saturday, May 26.

Mr. C. Foley spent the week end at Peoria.

Willard Shoemaker has joined the cavalry and expects to leave Wednesday.

Mrs. Della Judd was taken to the hospital Sunday for medical treatment.

Mr. and Mrs. Will Strausberg welcomed a 10 pound son at their home Friday.

Miss Esther Johnson of Chicago visited over Sunday at the King Lennas home.

Mr. and Mrs. Harry Daigren of Aurora spent last week with Mr. and Mrs. Sam Briggs.

Mr. and Mrs. Pratt Benjamin from Aurora were out at the Todd Benjamin home Wednesday.

Small Girl's Idea. In another suburban family, Molly, a mean-minded little girl of six, had watched with great interest her mother's struggle to keep on hand the single servant that the household demanded. A new baby brother arrived simultaneously with the departure of the latest experimental cook. The mother's sister was summoned in haste to manage the household temporarily.

Molly had hitherto been escorted to kindergarten by her mother. This morning for the first time she went alone.

"Why, Molly," said her teacher, "you're all alone this morning. Where's your mamma?"

"Mamma's gone to the hospital to get a baby," she announced solemnly. "And aunt's gone down to get a cook. And we think the cook's most important."

Roadhouses have raised the prices of meals again; on the theory that no matter how high their charge, the mere motorists can always raise the dust.

THE CAMP FIRE GIRLS MET SATURDAY

at the home of Charlotte Judd. The camp now has 15 members.

The Royal Neighbors will meet the first Wednesday evening in June at the home of Mattie Wilson.

Alice Myers, who has been spending the past two weeks with her grandma, returned home Sunday.

Alpha Johnson from Michigan is here to visit his brother, Will Johnson, who has been sick the past five weeks.

Mr. and Mrs. Harry Daigren, Mr. and Mrs. Sam Briggs were guests at the home of Will Gordon Thursday evening.

Mrs. E. Wilkinson entertained Miss Mable Wackerlin, Miss Helen Coker and Vernie Wilkinson at dinner Sunday.

Charles Brackett and Mrs. Alice Seavey have returned from Iowa where they visited Bert Brackett and Cora Miller.

The Grails roll will meet the first Wednesday in June at the home of Mrs. Cal Hartman. There will be a picnic lunch.

J. A. Johnson from Mount Vernon, S. D., called on Sugar Grove friends last week. Mr. Johnson brought a car load of cattle to Chicago. He got the top of the market.

Mable Wackerlin's friends gave her a surprise party on her birthday. About 25 young folks were present. The evening was spent with games, music and dainty refreshments.

Memorial exercises will be held at the church Sunday afternoon at 2:30 o'clock. A special program is being prepared with appropriate music. A cordial invitation is extended to all but especially the old soldiers are urged to come. Any one having flowers to donate is asked to kindly call the Camp Fire girls.

The hail storm Saturday frightened teams that were working in the fields. Stewart Wilkinson had two teams at work. One man was driving a four horse team hitched to a pulverizer, the team started and he could not stop them but managed to guide them thru the gate until they reached the barn. A four horse team driven by Hugh Gould got so frightened they got loose, breaking the harness to plow. The horses were not injured. Charles Zeile was badly frightened, running away and it was with difficulty they were caught.

One trouble with remorses is that it so seldom gets in 100 work until one is found out.

The Horrible Handicap of Poisoned Blood

The Innocent Suffer Even unto the Third and Fourth Generations, But Relief Is Now in Sight.

It has long been accepted as a matter of course that the sins of the fathers must be suffered by innocent posterity, yet it is hard to become reconciled to this condition. The heritage of physical infirmity is a handicap under which thousands must face the battle of life.

Scrofula is probably the most noticeable of the transmitted blood disorders, though there are other more severe diseases of the blood that pass from one generation to another. No matter what inherited blood taint you may be laboring under, S. S. S. offers

hope. This remedy has been in general use for more than fifty years. It is purely vegetable, and contains not a particle of any chemical, and acts promptly on the blood by routing all traces of the taint, and restoring it to absolute purity.

Some of the most distressing cases of transmitted blood poison have yielded to the treatment of S. S. S., and no case should be considered incurable until this great remedy has been given a thorough trial. S. S. S. acts as an antidote to every impurity in the blood. You can obtain it at any drug store. Our chief medical adviser, will take pleasure in giving you without cost any advice that your individual case requires. Write today to Swift Specific Co., 34 Swift Laboratory, Atlanta, Ga.—Advertisement.

PARISH SCHOOL PUPILS MARCH

Crowds Watch Children in Costumes Pay Respects to Grand Army and Flag.

MORE PATRIOTIC PROGRAMS

Crowds gathered in front of the Fox theater yesterday as more young Americans—children of the parochial schools—marched through the streets to pay their annual tribute to the veterans of the civil war.

About twenty youngsters of St. Joseph's school, dressed in their patriotic garb, and a steady influx of people toward the theater began their continued until all had passed in. As on the preceding days flags were distributed to the children by the soldiers.

Young America "Holds the Fort." John L. Walker, in charge of the program for the G. A. R., greeted the pupils.

"I wish to say to the fathers, sisters and pupils of the parochial schools that you all know the purpose in assembling here this morning. It is to meet with a remembrance of the boys who have given their lives for our country. Our ranks are decreasing, and it has been found necessary to have this annual gathering of the children come to us rather than that we go to them.

"It is not that we are lacking in spirit for the spirit of these boys is just as strong as it was in '61, but the flesh is weak.

"We realize that it is your American spirit that makes you want to see the members of the old guard, who have made possible this country in which you enjoy so much today. It is a great joy to me to see so many happy faces, and also we have started somewhat late, I pray that no part of the program will be omitted. We are in possession of this theater and an army cannot drive us out."

The Rev. Father F. A. Kilderry of St. Mary's church, in charge of the program for the schools, which was opened with a drill by the girls' marching club of Holy Angels' school. The girls in red, white and blue dresses, carrying banners reading "Holy Angels" went thru an army drill with such exactness and finish as to call for prolonged applause.

Former Aid, James Sanders, instructed the girls in the intricacies of the drill. In perfect time they formed a cross on the stage while three little tots representing the various branches of national service marched to the front of the stage.

Mary Garvey, of the Holy Angels' school in a recitation, "A Pleasant Hour at the Beach," assumed the role of a distracted mother with an ability that brought smiles to the faces of mothers in the audience. She was heartily applauded.

Pupils Drill Perfectly.
Equipped with arches in the nation's colors, the patriotic drill given by the St. Nicholas' school was enthusiastically received. In formation after formation which would have sorely tried a soldier in the regular army, the pupils drilled perfectly.

As a grand finale to the drill, the boys of the school marched upon the stage and "Hark the Drums Are Rolling" was sung in unison.

Aided by colored lights, the drill and flag drill by St. Joseph's school presented a pretty picture. The dainty pink and green garments of the girls were thrown into relief by the playing lights. The boys were dressed in the popular garb of Uncle Sam.

Three of the children, dressed respectively in solid red, white and blue, told the soldiers why they brought the flag to them. "Bonny Flag" was sung in chorus.

The high school girls of St. Mary's school recited a "Tribute to Columbus." At the command, "The flag was brought in and held in the center of the stage during the singing of 'Columbia.' They were followed by the eighth grade of St. Mary's school in a wand drill. Clusters of flags were carried by the girls.

MAN OF SEVENTY DECLINED TO WEAR STEEL JACKET FOR RHEUMATISM

P. W. Taylor Compelled to Go Up Stairs on Hands and Knees—Now Able and Active

help his rheumatism, as he was to old. Mr. Taylor, who lives at 2 Sumner street, Saugus, Mass., continued:

"They told me I would never do another day's work, but you see I have come back and believe I can handle a drill with the best of the boys. I was pretty bad, though, unable to feel myself or get my hands to my head. I had to crawl up stairs on my hands and knees and every move I made would go through the like a knife. The pain was so severe that I lost weight rapidly, going down to 130 pounds.

"The pain from my ankles to my hips was unbearable. I had to move very carefully or I would bring on a paroxysm. Treatment failed to help me, although I was examined by physicians in a large Boston hospital.

"Var-ne-als was recommended and the reports of what this medicine had done for others gave me confidence that it would cure me. I was told that a few bottles would cure me, and I returned to work, and haven't had a sign or symptom of the disease for a year. My stomach improved shortly after taking Var-ne-als, and I have regained my normal weight, which is 180 pounds.

"Every day a sufferer puts off taking Var-ne-als is just one day more of needless suffering. Get Var-ne-als now, today, at Harrison Pharmacy and any reliable druggist. Advise."

Blot the Acid Out of Your Stomach

Here's the Way—One Week Free

You have read a great deal about what different remedies and treatments will do for stomach misery—and you are asked to buy them on the strength of those statements. Many stomach sufferers have done so—and have been bitterly disappointed. No wonder they are skeptical. They are not to blame.

We have been telling you about a new way to get rid of your stomach troubles—indigestion, dyspepsia, heartburn, bloating, flatulence, "gassy stomach" and all kinds of stomach pains. We have told you that these troubles are caused by the formation of too much acid in the stomach, and that if you could reach right down into your stomach with a sponge or piece of blotting paper and literally suck up and lift out that hurtful acid all your stomach trouble would be gone immediately.

Now a way has been found that does just that—literally sucks up and blots the harmful acids and poisonous juices out of your stomach. It is called EATONIC—a pleasant tasting, compressed compound that you eat like candy. As you eat it, thousands of tiny sponge-like particles enter the stomach, suck up the excess acids like a sponge and take them right out through the intestines—and nature does the rest.

Just to prove all this to be true—every word of it—you are invited to a full week's supply of EATONIC absolutely free. On any day week after next you can go to leading druggists, ask for a week's supply of EATONIC and the druggist will hand it to you free, without argument, or charge. The full week's supply is absolutely free to you on any day during the week mentioned. After you take EATONIC for one week, and want more, these same druggists will supply you as they have it for sale in full size boxes.

You'll Forget You Have a Stomach

You will be most agreeably surprised at what this one week's use of EATONIC will do for you. You'll be surprised to find out that your stomach is the best stomach in the world—that you have merely allowed it to accumulate too much acid which acts as a poison, irritates the lining of the stomach, and retards digestion so that the acids and poisons cause the formation of painful gases and poisonous juices. EATONIC simply sucks up and blots out those excess acids and drives out the gas. It enables you to forget that you have a stomach. Hundreds of thousands of people all over the United States and the whole world have done this. They clear up just what the trouble has been—too much acid in the stomach—and that it is merely a matter of taking out that excess acid and the trouble is gone. We can show you signed letters from some of the most prominent men and women in America stating that EATONIC has quickly relieved them of all stomach troubles. But we don't ask you to take their word for it. We want you to find out for yourself just what it will do for you—alleviate your stomach troubles and make EATONIC absolutely harmless. It is healthy for anyone's stomach because it is anti-acid—does not contain a particle of anything that can possibly hurt the weakest stomach.

Go to the druggist and get the proof. Forget your stomach for a week and then if you want to go through life with perfect stomach ease every day—eating what you like—digesting what you eat with comfort—getting more stomach out of your food—you'll know the way to do it. You will find it not only the sure, because EATONIC is always handy. Leading druggists now have it for sale. EATONIC Co., 1015 So. Wabash Ave., Chicago.

Last Wednesday the rooms in the Waterman school held their annual picnic. Many autos were offered and the pupils and teachers were taken to Rose Grove, at noon where the rooms had their picnic dinners in groups. The afternoon was spent in roaming about the timber. They all had an abundance of good things to eat and had a fine time.

Mrs. William Congdon entertained the members of the Hope club Thursday evening. There were many of the girls present and as the club had not met for some time, they greatly enjoyed the evening's visit. Plans were made for the May 5 o'clock breakfast. The hostess served a delicious luncheon.

Street lights are now lighted by power from out of town. So far the street lights have been on all night as the automatic clock has not as yet arrived. When that has been installed the lights will go on and off automatically, burning until midnight. The dwellings, stores, etc., are on a separate circuit and have 24-hour service.

Some of the young people from this vicinity went to Keokuk, Sunday afternoon where they took part in a musical given by Professor Toengies in his music rooms on Lincoln highway. Miss Burdell Whitford and Alfred Charlesworth gave piano sections. Miss Dolly Greene and John Duffy sang. Several Waterman people were present.

The Reverend Mr. Wallace of Chicago addressed a well attended meeting of the Brotherhood of the Presbyterians church Thursday evening. He was well received and gave an inspiring address. Among the items of business considered was that of shingling the south side of the church. It was voted to have a shingling bee. The Ladies Aid society will serve dinner to the men at the bee.

Be up and doing, if you would not be down and done.

FIND SHORTAGE IN BROADCASTS

Jobbers Now Endeavoring to
Buy Fabrics From Others
Who Have Them in Stock.

In cotton dress goods, the Dry Goods Economist says, it is the end of the season and converters and jobbers are cleaning up stocks and turning their attention to fall business. The strength of the market in this branch is shown by the liberal advance orders placed by retailers and jobbers, resulting in the withdrawal of some lines and the calling home of some of the men on the road. Linings show increased activity.

The immediate demand for white goods is somewhat quiet, as a result of the heavy advance orders and the comparatively small sales over the counter.

Shortage of Broadcloths
In wool and worsted dress goods the principal development is the shortage of broadcloths. Jobbers are now endeavoring to buy these fabrics from other jobbers who have them in stock. Mills producing broadcloths in a large way have none to offer and in accordance with the reservation embodied in contracts when accepted at the opening of the season, last January, are scaling down the quantities which were scheduled for delivery at this time.

Raw wool has been very active in the Boston market and advances of from five to ten cents a pound, according to grade have been effected, with the higher appreciation in the low qualities. Here, again, the government's requirements are a potent factor. It being certain that the present stock of wool and more will be required, efforts are being made to induce the British government to permit the shipment of 200,000,000 lbs. of Australian wool to this country.

Silk Trade Marks Time
In the silk fabric field the chief item of interest is the advance of 50 cents a pound asked for spot raw silk in the New York market, in view of the possibility of a 10 per cent duty being imposed on this raw material. Silk manufacturers continue to make offerings of goods, but large operators are holding aloof from the market, as they have heavy stocks and assert that they will not be open for purchases until about July.

EDISON WORKERS TAKE LOAN

(By Associated Press Licensed Wire.)
Orange, N. J., May 25.—Thomas A. Edison's appeal last night to the thousands of workmen in his West Orange plant to buy liberty loan bonds met with hearty response today. A committee of 250 officials of the allied Edison industries, headed by the inventor's son, Charles Edison, announced that 350 individual subscriptions amounting to between \$25,000 and \$10,000 had been made this morning.

ORGANIZATION TO WIN THE WAR FOR AMERICA

FRANK VANDERLIP ADDRESSES
MEETING OF TECHNICAL
EDITORS.

(By Associated Press Licensed Wire.)

Washington, May 25.—Editors of about 300 engineering, technical and trade publications met here today with the council of national defense to discuss plans for assisting the government in the conduct of the war.

Frank A. Vanderlip, president of the National City bank of New York, told the editors that the success of the United States in the war would be measured by its degree of organization.

"The business of America," business men is to co-operate with the government," said he. "The government is organized for a new business. The business of war no longer is that solely of fighting, but all are combatants, all are in the fight. Our success will be measured by the degree of our organization."

"This war must be fought on the savings of the future. The whole answer is in expansion of banking credits. We must borrow in advance of our saving and liquidate as we save. This applies to all, millionaire and employee alike. You are saving the businessmen take bonds and let their employees pay for them. The war cannot be financed on the savings of the present."

Some think economy will be bad for business, but no; business will be different, it will be a business of necessities. We cannot give the government \$7,000,000,000 and expect to have as much left as at present to spend. It is unpatriotic to spend money for anything but necessities now. You should cease employing labor in unnecessary things.

We are about to see the greatest industrial activity any country ever has known. We will see the most intense activity and the biggest wage scales but it will be in the business of war. We will throw no one out of employment but into a situation where two men are needed instead of one. Men engaged in producing luxuries should cease at once as a patriotic act."

MOTHER SAID TRY IT

Lydia E. Pinkham's Vegetable Compound Cured Mrs. Copner after Doctor's Failed.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, 'I want you to try Lydia E. Pinkham's Vegetable Compound.' So I did and it has certainly made me a well woman. I am able to do my house work and am so happy as I never expected to go around the way I do again, and I want others to know that Lydia E. Pinkham's Vegetable Compound has done for me."—MRS. JOSEPH COPNER, 1634 Harrison Ave., Fairmount, Cincinnati, Ohio.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

INCREASED SUGAR BEET CROP URGED

U. S. Farm Food Bulletin Warns of Importance in Raising More of Sugar Crop.

War Has Developed Many New Uses for Product—Food Value Is Also of Great Importance.

In view of the sugar situation, both domestic and foreign, it is advisable to increase the beet sugar output in the United States this year as far as the seed supply and the farm and factory conditions will permit. The indications are that in many portions of the area devoted to sugar beets in this country the acreage this year will exceed that of any previous year and will be in many cases limited only by the amount of seed now available. In other localities, it is understood that there is considerable beet seed which is being held in reserve for next year's planting in accordance with the usual practice. Under the existing conditions in this country and Europe, it may be advisable, says the United States Department of Agriculture, to utilize at least a portion of this reserve seed in those localities in which the farming and factory conditions will permit the handling of a larger acreage of beets than has at present been contracted for.

Sugar, an important food in time of peace, is doubly so in time of war, both because of the energy contained in a pound of sugar as compared with a pound of other foods and because the conduct of modern warfare has developed many additional uses for sugar. Therefore the sugar companies and farmers of this country would be performing a patriotic duty by increasing the sugar output so far as practicable this season.

Other Crops Not Interfered With. Undoubtedly considerable increases in sugar beet acreage could be brought about in some localities without interfering with the production of other crops. In the sugar beet section of the country, California, where the crop is already planted and growing, many farmers who have contracted to grow beets can undoubtedly increase their acreage somewhat. Many farmers in the sugar beet areas who have not yet contracted to grow sugar beets could increase their acreage by planting a small acreage of sugar beets. Owing to the fact that sugar beets can be produced to advantage for sugar-making purposes only in those areas where sugar mills are located, the areas in which they can be grown for sugar production are limited as compared with the larger areas that are or may be devoted to the production of other foods.

The sugar beet by-products, tops and pulp, are of high value for stock feeding purposes. Arrangements should be made, therefore, to utilize the sugar beet by-products as an all-in producing an extra supply of meat and dairy products. Every pound of beet tops or pulp utilized for stock feed will save a certain amount of grain and other feed required for meat and dairy animals, or will increase the meat and meat product output if properly used.

Five Minute Talk by A Suffrage Leader

MRS. JOHN BALCH.

"Wherever we work we win." That is the slogan of the women who are banded together the country over in opposition to woman suffrage, and from personal experience I know it to be true.

Outside of Massachusetts and a few other eastern states there was little, if any, organized opposition to "votes for women" prior to 1912.

From 1920 to 1910 no state was added to the suffrage column, every referendum of the question ending in defeat for the cause.

The result was the growth of a false sense of security among the women of the country—a feeling that anything so obviously fallacious as woman suffrage could not grow; that the common sense of the people would prevent its further extension without any organized movement to combat it.

In 1910 we began to reap the fruit of the public indifference or overconfidence thus engendered.

With a small percentage of the voters participating, Washington in that year joined the suffrage states, in which also a small percentage of the regular voters took part.

California adopted suffrage by majority in 1911, and in 1912, with equal display of indifference, Oregon, Arizona and Kansas became double suffrage states.

With these suffrage gains came the realization that we were allowing suffrage to win by default.

We regard the woman suffrage movement as an obstacle in the path of progress, a force tending to destroy the things vital to our highest civilization. Our immediate purpose is to remove this destructive force, but our ultimate purpose is the direction of women's thoughts and energies into those channels where they can be of highest service to society and to the race.

We are fighting for freedom—freedom for the great mass of women from hampering political entanglements, that they may attain their greatest development in natural and unselfish service for humanity.

NEW YORK'S NEW POPULAR SONG

OLD LOVE MALLARD WHICH IS LATEST CRAZE.

Something out of the ordinary in popular songs is a new affair just out, called "Wake Up, Virginia and Prepare—for Your Wedding Day," in which there is no war theme but some very odd battle terms woven around a girl and her sweetheart, who comes to capture her as his bride. The bomb is aimed at her heart but it is loaded with orange blossoms. Rather a pretty idea. But the music is even more fascinating.

Here is a part of the chorus clipped from a copy just received:

Wake Up, Virginia, and Prepare For Your Wedding Day

Lewis Porter. Lyrics: L. S. Porter.

Wake up, Virginia, and prepare for your wedding day, for an old-time comes marching in with a heart in battle.

My lips are tingling with kisses, but the on-ly arms I fear—

One sweet orange blossom, Virginia, so wake up and prepare.

One reason for the song's popularity is that it contains no high notes but a climax that makes it quite delightful to sing. The title page is the prettiest thing ever and such.

PRIEST ASSAILS THE UNPATRIOTIC

Americans Must Stand Together Regardless of Church or Political Belief, Says Fr. Noll.

"The Catholic hierarchy has spoken and pledged to President Woodrow Wilson the clergy, the laity and the people," says John Noll, pastor of St. Nicholas church Wednesday night. "The Guardians of Liberty and their like ran to their hiding place."

"I love my country and I cannot endure the idea of having American people deceived by those who organize in the dark and plot in secret to cover their own sins. The pages of American history are brightened by the deeds of Catholics from the time of the founding of this country. The Catholics are loyal. The loyalty of Catholics to the United States has always stood out. In the war of 1812, the Catholics of the great generals 'excepting General Grant, Catholics—Rosencrantz, Sheridan, Sherman, Shields and others.' The same applied in the Spanish war. Even had the pope ordered himself as commander of the Spanish army, the Catholics of the United States would have fought against him."

"Better than one-third of the regular army are Catholics, two-fifths of the navy are Catholics. More than one-third of the members of the national guard are Catholics. During the Mexican fluery last year were Catholics. If the religious connections of the soldiers of this war are listed, after the war, the Catholics will in proportion have the most enlistments and men in the service."

"We have every reason to expect the patriotism of those who band together in secret using a high-sounding name for their organization."

"You will find on the battle lines, the Sullivan, the Canvass, the Sheas, the Germans and the Polish leading in the fighting, and everyone else of foreign birth or a descendant of those of foreign birth, who are opposed by the secret un-American societies. These are the men our country must depend upon."

"We are not excited because our country is at war. We are excited because of our love for the country we are obligated to. There is a picture—pointing to the Stars and Stripes—on which the eyes of the people of foreign lands are fixating."

Enthusiasm Needed.

"We must be awakened to realize that we are at war and that the situation is most serious. We need breezes of enthusiasm to fan into flame the spirit of enthusiasm in our hearts. We almost had a feeling of disgust with the European war. We had hoped it would remain an European affair. It exploded and got over here."

"We need pat. cases to arouse the people so they may know that it is a most serious affair. This war will not be won by big headlines in newspapers, nor by sentiment or flying flags. We are not sure we are on the winning side. Safety first demands that we be for America first and for America alone. (A mention was made of Germany victories and one man applauded). A moment later

500 applauded a remark applied to this country.

"The United States alone today could not whip either England, France or Germany. We are a great nation, unprepared. No matter how big we are, if not trained. Few of us have seen actual service and it is plain that we couldn't combat with a trained force. We need fewer professions of faith and more active service."

"There will not be any anti-English sentiment by the Irish in this country, even the England has been the enemy of the Irish for 1,000 years. The Irish, Germans and Polish will fight for the United States. Despite the feeling against England we will fight with them while this country is in the war. The German leaders have publicly declared that they and all Germans of sound mind are for the United States."

"England's present offer of home rule to Ireland is because she wants to get the sympathy of the Irish so they will fight for her, because as England says 'we know the Irish can fight.'"

"We can all render some kind of patriotic service. We are in it; it is of our doors; it is our affair. We are going to win or lose. Unless we get interested we will lose. Our country needs us. Let all do something to make for the success of our country. We love our country because we know the benefits we get from it. Let this be your slogan. You have done much for me, Old Glory, I'll begin to do something for you."

TWO SANDWICH CHURCHES VOTE TO UNITE FOR WORK

PRESBYTERIANS AND BAPTISTS JOIN FOR LOCAL WORK ONLY.

Sandwich, Ill., May 24.—At the regular morning service at both the Presbyterian and Baptist churches last Sunday morning a vote was taken on a proposed constitutional amendment federating the two denominations. It was adopted by both churches so as soon as final arrangements can be made the services of the Federated church of Sandwich will be held in the Presbyterian building. Each denomination retains its individuality, supporting, the same as ever, its benevolences, but united in all local work, this making a church of double strength at half the cost of administration. This plan has been successfully adopted in many places.

The many friends of Mrs. Charles Nicholson will rejoice to learn she is recovering from her serious illness.

Mrs. Britton is quite ill at the home of her daughter, Mrs. James Killey.

Sandwich chapter No. 107, R. A. M., had work in the August degree of the Royal Arch Tuesday evening. A fine banquet followed, which was much enjoyed.

The Red Cross society holds its meetings every Wednesday at the Presbyterian church. Every woman in the community is asked to ally herself promptly with this important movement and "do her bit." A mass meeting will be held in the opera house, Sunday evening with good speakers and fine music.

The local institute of the W. C. T. U. was held Tuesday afternoon in the Congregational church. Sickening prevented several members attending but a very interesting program was given and greatly enjoyed by all present. In the evening ten pupils of the eighth grade of the public school took part in a prize essay contest, having written essays on some phase of the temperance question. The judges decided the best essay was given by Coleman Woodbury, and he was awarded a prize of \$2.50 in gold, given by the W. C. T. U. This essay will now be entered in competition for the state prize of \$10. The class as a whole did exceptionally well and did great credit to the careful work of the teacher, Mrs. Esterbrook.

INCREASE IN CROPS BY USING NEW LAND

Acres Can Be Vastly Greater
by Breaking Up Fresh Soil
U. S. Farm Bulletin Urges.

Flax, Corn and Beans Best Adapted
to New Soil Crops—Methods
of Sod Crop Planting.

Washington, D. C., May 22.—The acreage of certain crops this year can be greatly increased by breaking new land where such land is near farms already in operation, according to the specialists of the United States department of agriculture. Assuming that all cultivated land will continue to be farmed, this use of new land now offers the largest opportunity for increased acreage of 1917 crops. This applies to the prairie region in general, but principally to the great plains. The breaking up of new land provides for crops that would otherwise be put on present cultivated land. If these new lands should not be ready in time for crops of the present season, they should be in excellent condition for wheat next fall or for wheat or some other crop next spring. The farmer is urged to use new land to the neglect of his usual farm operations or to attempt more than he can carry out in the way of breaking new land with his available labor and equipment.

Crops Adapted to New Breaking.

The crops that are known to do best on new breaking in the great plains and prairie regions generally are flax, corn, sorghum (kafir, milo, sorgo, or sweet sorghum), broom corn, and beans. Such vine crops as squashes, pumpkins, etc., can sometimes be grown to advantage with corn, kafir, or other tilled crops where live stock is available to utilize them before freezing weather. In the fall, in some cases the total production per acre can be increased by growing two crops together, such as corn and pumpkins, where these are adapted.

Flax is adapted to the corn plains, especially to Montana, the Dakotas, and western Minnesota. The acreage of flax can probably be increased to a great extent on new land in this district. It can be sown late in the season and is well adapted to newly broken land; in fact, it is the crop most largely used on breaking in the region where flax is grown.

The sorghums (kafir, milo, sorgo or sweet sorghum) should be used extensively in the great plains from Nebraska southward. These crops are better adapted than corn to districts where the rainfall is low. Where corn often fails on account of drought the sorghums may make a fair crop. The acreage of sorghum can be largely increased on new breaking, where old ground is already taken for other crops, at comparatively small cost.

Broom corn can be grown on the sod land and leave that much acreage for other crops. It is adapted to the southern half of the great plains. Beans are a good crop on new breaking. They are being used with good results in Colorado and the southern plains. The Mexican or plateau bean is largely employed, and is already increasing greatly as a real staple crop, similar to cereals.

Seed and Labor.
The two things that may interfere with this great addition to the food crop acreage are lack of seed and labor. Fortunately not much seed will be required for corn and the sorghums—from six to eight pounds per acre for the former and from three to five pounds for the latter. In the extreme southwestern plains the soil is sometimes loose enough that it may be disked and harrowed and thereby put into good condition like old ground.

The farmer must remember that chances of loss from drought still exist even if newly broken land is used. There is, however, the advantage in this means of increasing the acreage of crops this year—that sod land conserves moisture more than old ground.

Methods of Planting Sod Crops.

The methods of planting these crops, which are usually quite different from those used on old ground, will depend upon the kind of crop and the condition of the sod in the locality. Sometimes the seed is dropped by hand ahead of the breaking plow in about every third furrow in such a position that it will come up between the furrows. Sometimes, while the sod is freshly turned, the seed of the crop may be planted with a two-horse planter having rolling cutters in front of the shoes, or if this machine is not available, the seed may be planted with a hand corn planter. Other methods will suggest themselves or may already be in use in different localities.

"As for the wonderful books of the Encyclopaedia—they are simply treasures! When I was offered to compete for the position I now hold, I studied up every reference to the subject of dredge and hydraulic mining therein, with the result that I passed 87% on all the questions asked me. A NEW VOLUME ABOUT THE WAR

THE publishers of The Encyclopaedia Britannica announce that they have made arrangements for the issue, as soon after the end of the war as possible, of a new volume, containing a full and authoritative history of the war.

The new volume will be written by scholars and experts of the same high character as those who wrote for the Britannica itself, and by many of its own contributors. It will be absolutely impartial, excluding all partisan feeling and prejudice. It will contain:

1. A judicial account of the real causes of the war, the progress of the struggle, and the results all over the world; with maps, as necessary, to show changes in boundaries.
2. The lives of the new leaders, whether civil, military or naval, in the belligerent countries.
3. The results of the war outside the sphere of fighting, the progress of surgery, the prevention of contagious disease, the new scientific discoveries, etc.

The new volume will bridge the gap between the days of peace before and after the war. It will be printed and bound to match the Britannica and the publishers guarantee that, no matter how difficult and costly the supplementary volume may be from the editorial point of view, the price of it to all who purchase the Britannica during the present sale will not be more than that of a corresponding volume of the Britannica.

H. H. Munroe, President.

The time has come when you must decide and order. That is the whole story.

Today there is no use in telling you what the Britannica is, how valuable it will be to you in your work, what an advantage it will give you and your family to own it. You know now whether you want it or not. There is only one thing left for you to consider—will you order or not?

Unless you order NOW you will NEVER be able to buy the Britannica printed on genuine India paper. Because there is no more India paper for printing the Britannica. And no more can be made—war makes it impossible to import the flax and hemp for making India paper.

If you KNOW you want the Britannica, sign the "Reserve" Order Form in the corner of this announcement, attach a dollar bill to it and mail it just as quickly as you can.

If you are almost sure you need the Britannica, but want to be positive before you order, go to the store named here and ask to see the entire set. If the books convince you that the Britannica will be useful and helpful to you, leave your order in the store and make your first payment of \$1.00. The entire 29 volumes will be sent you at once and you will have them to use and profit by while you pay for them.

This advertisement, in order to reach the newspapers of the extreme East, West and South had to be prepared and sent out ten days ago. At that time we estimated that the remaining sets of the "Handy Volume" Britannica—the last in the entire world—would take care of all orders mailed us on or before Saturday, May 26th. But orders have been increasing so rapidly that the last set may be gone before this.

BUT—Do not let this possibility delay you. Send your order TODAY! Every minute now is precious if you are really anxious to own and profit by the knowledge the Britannica will bring you.

(If the last set is sold before your order is received, your money will be returned to you immediately.)

OTTO KONRAD IS STRICKEN

Deputy Revenue Inspector Suffers Stroke and Dies in Few Minutes at Home.

BRAIN HEMORRHAGE IS CAUSE

Otto Konrad, 53 years old, United States deputy revenue inspector for the northern district of Illinois, died suddenly at his home, 212 Clark street, Aurora, last night at 9:40 o'clock. A cerebral hemorrhage was the cause of death.

The government official arrived home from Elgin at 6:30 o'clock last evening and seemed in his usual good health. He ate a hearty supper and then spent the evening with his wife and only child, Miss Clara Konrad, 17 years old. At 9 o'clock he remarked that he was tired and went to his bedroom.

"In about 15 minutes Mrs. Konrad heard a noise like deep snoring," Frank Konrad of Chicago, a brother, testified at the inquest this morning. "She went into the room and Otto was sitting on the side of the bed. He had taken off his coat and vest and had unlaced his shoes. His collar was also unbuttoned. He was choking when she went into the room and one side of his face was black. She thought he recognized her but he could not talk. It was all over in about thirty minutes."

Dead When Doctor Arrives. Dr. W. L. Murphy was called to the residence but Mr. Konrad was dead when he arrived. The remains were taken to the J. B. Corcoran funeral apartments, 72 South LaSalle street, where an inquest was held this morning.

Richard Northam, who resided less than a block from the Konrads in Clark street, dropped dead in almost the same manner last Wednesday morning. He was facing his shoes in the Burlington pump house in North Broadway when he stricken with a cerebral hemorrhage.

Mr. Konrad was for a number of years foreman in the John Geiss cigar factory in Batavia and also served as an alderman in the Batavia council. At the time he was appointed to the government position two years ago he gave up a hardware business and moved from Batavia to Aurora, and has resided here since. He had a wide circle of friends and news of his death last night was a shock to them as he had always been a robust man.

Born in Wisconsin.

He was born in Weyauwega, Wis., Nov. 15, 1863, and was married June 7, 1889, to Miss Mary Feeney, a sister of Andrew Feeney, formerly of Aurora, now engaged in the wholesale butter business at Iowa City, Iowa. He leaves, besides his wife and daughter, his mother, Mrs. Wilhelm Konrad, one sister, Emma, both of Kaukauna, Wis., his brothers, Jacob, William, Fred and Herman, also of Kaukauna, and Julius, of Minneapolis and Frank of Chicago.

The funeral will be held from the late home, 212 Clark street, Sunday afternoon at 2 o'clock. The Rev. P. J. McGuire, pastor of St. Mary's church, will conduct services at the house. Interment will be in East Batavia cemetery.

Societies and Clubs

ON WAGE BONUS

Representatives of men who quit their work in the Stephens-Adamson plant Wednesday after an argument over a 10 per cent bonus which was offered the men said today that 55 to 70 men were out and more were going to leave.

The company stated that 17 men—none of them old employees—were away from their work.

The company and the representatives of the men who are out also differed as to the terms of the bonus.

The men said they were to get the 10 per cent only if they had been with the company three months or more and did not lose any time in a working month. If they lost between 20 and 40 hours in this period of their employment, except for injuries in the shop, they would get no bonus the men said. If they lost 10 to 20 hours they would get 5 per cent bonus and if they were off 1 to 10 hours they would get 1 per cent bonus. They preferred a flat raise of 25 cents a day and no bonus, the men said.

The company chart as shown today provides for a 10 per cent bonus for all employees who lose no more than two hours in two weeks and have been in the employ of the company three months or more.

Eight per cent bonus in given the three months employees if they are off from 2 to 10 hours, 6 per cent if they are off 10 to 15 hours, 4 per cent if they are off 15 to 20 hours and two per cent if they are off 20 to 26 hours in the two weeks.

The men say modifications have been made since they went out while the company states that in putting in any new system some minor changes are made in arriving at a plan which is satisfactory to all.

The bonus for men according to the term of employment, is 10 per cent for three months, 8 per cent for two and months employees, 6 per cent for one to two months employees.

ST. PAUL'S CHURCH WILL BE REMODELED

Rev. A. M. Loth Announces Improvements Planned to Cost \$38,500.

Addition to Be Built to South End of Present Edifice—Other Changes.

The St. Paul Lutheran church, corner of Benton and Jackson streets, will be enlarged, remodeled and redecorated at a cost of \$38,500, it was announced today by the Rev. A. M. Loth, pastor of the church. Christ Lutheran has been awarded the general contract and will begin work next Monday.

An addition 40 feet by 60 feet is to be built on the south end of the present church building. It will be wider than the present building and when completed will give the church an auditorium in the shape of a cross. The seating capacity of the auditorium will be doubled. The remodeled church will seat 900. There are now seats for 450.

New Organ and Heat Plant.
A new organ and new heating plant are also to be installed in the edifice. New windows, carpets, pews and light fixtures will also be installed.

The last services in the present building will be held next Sunday. While the work of building and remodeling is in progress the services will be held in the school hall. When the weather is warm open air services will be held in the school yard.

PROMISES TO FIGHT SWEDEN IF NECESSARY

"If the United States should become engaged in war with Sweden, what would you do?" is the question Judge Maxine Blumberg put to a Swede yesterday, who was seeking final naturalization papers in the circuit court at Geneva.

"I would fight against Sweden. I will fight for the United States against any country," the applicant answered.

Deputy Circuit Clerk Charles Farmlie, who was the naturalization clerk yesterday, said that the 17 men admitted to citizenship were very well informed about our system of government.

BUSINESS ON "Q" NOW AT HEIGHT

All Departments, Freight Shops and Passenger Service Rushed—Short of Cars.

Great Scarcity of Laborers Reported All Over the Burlington System.

Business all over the Burlington system is at its height now. All departments, freight and passenger service, and in the shops. Shortage of cars to handle the freight traffic continues to be the greatest complaint. All other roads are found short of cars, many being in worse condition than the Burlington in this respect.

In the local shops men are very busy in all departments. The demand for mechanics has been filled but the great trouble they are having now is getting laborers.

A few weeks ago the Burlington was having difficulty in getting firemen and brakemen. They advertised, still could not get the quota needed. It was reported this morning at the offices of the railroad in Aurora that now they have plenty of firemen and brakemen.

Rush on in Shops.
In the Aurora shops a force is working getting the motive power in shape to handle the big volume of freight and passenger business, which has nearly swamped the road. Old engines that have been out of service are being rebuilt and repaired and will be put into service soon. Besides these the order for 55 freight engines, which have been under construction at an eastern locomotive plant, is being shipped now and put into service rapidly. Assistant superintendent of the Aurora division, A. J. Carter, said this morning that the company is doing all possible to get cars and engines in shape to handle the traffic.

Pay Day Monday.
Burlington pay day will be next Monday and it is estimated that the payroll will be about \$250,000 for the Aurora division, including the trainmen, shop hands, section men, etc. This will include the 10 per cent increase which was granted the men last week. The section men were raised from 17 1/2 cents to 20 cents per hour. Trainmen and operators were not included in the raise. The \$250,000 will include, however, all the trainmen working out of Aurora, Chicago and Galeburg and the operators also.

IN SOCIETY

To Meet at Elgin.

An invitation is extended by the Elgin Woman's club to the members of the Aurora Woman's club for Saturday, June 2, the date of the regular meeting of the Kane county Federation of Women's clubs. Mrs. George O. Plummer, state parliamentary officer of the federation, and a woman now keenly interested in the woman's movement, for national defense, will speak at this meeting, urging cooperation among the women of the Eleventh district. The regular board meeting will be held at 11 o'clock with the address at 2 o'clock at the Y. W. C. A. A luncheon will be served for the price of 50 cents to those who care to attend, and those who plan to do so are asked to notify the secretary, Mrs. R. S. Bridges, 431 Prairie street, Elgin. Mrs. J. H. Bliss is chairman of the county federation, with Mrs. E. W. Thompson and Mrs. E. S. Hobbs representatives by virtue of their position upon the board. Those who know Mrs. Plummer, know that she can talk the greatest amount of horse sense in a few minutes imaginable, partly because she has been a farmer's wife and partly because she was around the farm they gave brains away.

EXEMPT FROM REGISTER
[By Associated Press Lead Wire.]
Washington, May 25.—Members of any duly organized and recognized force, military or naval, subject under other laws of the United States to be called, ordered or drafted in the military or naval service are not required to register June 5 under the selective service act, Provost Marshal General Crowder said today in telegram to governors.

ARTILLERYMAN SUICIDES
[By Associated Press Lead Wire.]
Clinton, Iowa, May 25.—Alfred Olson, aged 25 years, a member of Battery A, First Iowa Field artillery, with which he served on the Mexican border last summer, this morning committed suicide by shooting himself thru the heart. No reason for the act is known.

Men, While You're Down Town Tomorrow, Save on Good Shoes

MEN, since you need shoes today same as always, the matter of buying resolves itself into the question: "Where can I get the most value for my money?"

We're out to make the Annex as popular a mecca for men as it is for women, so we say: "The Annex is the place"; for the same reason that your wife, your mother and sister have come to know this department and the why of its ability to deliver greater values. Women of Aurora have made the Annex famous—famous through the medium of "more than their money's worth footwear," obtained in every purchase made.

If your own mother and sister see fit to buy their shoes and slippers here, see to their advantage a genuine saving in cold dollars and cents, then it most certainly behooves you to do, likewise—buy in the Annex.

We maintain that this should be your shoe store, because we can serve and please you from the standpoint of price and quality. The larger part of our stock was purchased long before the radical increases went into effect; reason why better shoes can be had here today, and for less money than would be asked for the same class of merchandise in most any other store.

Convincing prices are quoted below for shoes that measure up to the regular standard of Wagner quality, that quality which brings your women folk back to this store time after time.

SCREENS

Screen Economy PEARL

Realize first of all that the wooden frames cost several times as much as the wire cloth that goes in them.

So—at most—the actual wire cloth itself is "but a SMALL part of the total screen expense."

Yet, the WORTH of the entire screen is absolutely dependent upon the life and durability of the wire cloth. If you use "black" or "galvanized" wire cloth, you know in advance that it is only a question of a season or two before you'll have to tear the frame to pieces and put in new wire cloth.

But—IF—
—you screen in the first place the genuine G & B PEARL Wire Cloth, you can be certain of permanent efficient protection.

G & B PEARL entirely does away with painting and repairs and replacements. It is the longest wearing, best looking, most satisfactory all-around wire cloth that ever went into a door or window or porch.

Movie Notes

Mrs. William Christy Cabanne and the small William Christy Cabanne are doing their spring planting on the William Christy Cabanne estate on Long Island. The director himself is too busy with the production of the next Francis X. Bushman and Beverly Bayne Metro wonderplay to participate in the study of "how oats, peas, beans and barley grow."

Gardening occupies the leisure time of Harry S. Northrup on the days when Edwin Carewe, does not require his services in Ethel Barrymore's new production, "The Greatest Power," in which he is principal villain. Mr. Northrup is one of those who add to the beauty and utility of Long Island by growing both flowers and vegetables. He is a practical farmer, being familiar with soil conditions of both east and west coasts of the United States.

"The Marcellini Millions," the next Morosco-Paramount picture starring George Beban, has been released. The story was written by Edith Kennedy and prepared for the screen by the author and Mr. Beban in collaboration. It was directed by Donald Crisp, who has presided over all of Mr. Beban's recent photoplays. An exceptionally large cast of well known players appear in support of Mr. Beban including Helen Jerome Eddy, Pietro Bossi, Henry Wood-ward, Eugene Pallette and Adele Farrington.

The settings for this production are extremely elaborate, the exterior of the Marcellini mansion being the most comprehensive set that has ever been built in the Morosco studio. The spacious great hall with its grand staircase, the mezzanine balcony, and all the magnificent panelling, elaborate in every detail, would in itself constitute an exceptional piece of scenic construction. This, however, is only one part of the remarkable setting which also includes the living room, the dining room and some of the upper rooms of the mansion. Every room in the scene was designed and executed in a manner commensurate with the lavishment and splendor of the great hall. Massive furniture and huge paintings and tapestries stamp this entire dwelling as being unmistakably that of a millionaire.

Into the exquisite home there is introduced Guido Bartelli, a mere Italian truck gardener, and his grimy wife who have been transported from their lowly hotel to be the heirs of the Marcellini millions. The enchantment of this palace turns the head of Mrs. Bartelli and she is immediately seized with the spasms of social aspirations and becomes painfully aware of the crudities of her good spouse, who tries in every conceivable manner to induce him to at least accept a veneering of social etiquette. The simple-minded Guido, however, cannot abandon his old habits as can his more adaptable wife and it is not long before there is woe and anguish in the house of Bartelli. The unhappy pair eventually find their way into the divorce courts and experience many vicissitudes; but the discovery that the Marcellini millions are not rightfully theirs brings poverty and happiness once more.

Josephine Stevens, "Fatty" Arbuckle's new leading lady and heralded as one of the latest "film finds," declares that she is completely wrapped up in two subjects beside her art. Both are nephews and they reside in Philadelphia. Neither is over four years old.

NEW ENID BENNETT PLAY. One of the most charming plays that has been developed in the Triangle-Ince studios in many weeks is now nearing completion with Enid Bennett in the star role. Miss Bennett has had the unique

experience of stopping from the speaking stage of Australia and New York into popularity on the screen. In the new play Enid will appear as the granddaughter of a veteran of civil war. There is a delightful charm and novelty in the handling of the story by C. Gardner Sullivan, and there will be unique reality in its staging.

Expert Shoe Fitter **J. GOLDSMITH** 15 North Broadway

Says Joe Frey:

SOMEONE told me that Marshal Joffre pronounces his name same as I do mine, but I asked Fornduquese and he says that the correct pronunciation is "Joff're," with the accent on the first syllable, the latter entirely silent—as just plain "Joff."

But what I was going to say is this—With the price of grains soaring sky high and the proposed war tax on all kinds of "spirits," it looks as if it would be a good stunt to lay in a fair supply of liquors at present low prices.

This much is certain; we won't raise our prices until we are positively compelled to do so, but that there will be a raise of from one dollar to a dollar and a half a gallon is assured.
